Proceedings

OF THE

Government of His Highness the Maharaja of Mysore

OCTOBER 1911.

BANGALORE:
PRINTED AT THE GOVERNMENT PRESS.

1911

CONTENTS FOR OCTOBER 1911.

PART I, IN EXTENSO.

I. REVENUE.

PAGES

SECTION 1—LAND REVENUE.

No. R. 2-4—L. R. 366-10-4, dated 2nd—	
Sanctioning the levy of a cess of 8 annas per acre from the holders of lands under the Kalhalli channel in commutation of their liability to maintain it, and observing that this arrangement may be extended to Kirangur and Yernane channels also if the rayats have agreed to pay the cess	1
No. R. 1896-906—L. R. 137-11-3, dated 4th—	
Sanctioning the budget estimates under the Irrigation Cess Fund for the year 1911-12	1—5
No. R. 2057-66—L. R. 96-10-6, dated 24th—	
Communicating the decision of the Government of India that where a Native State constructs a Railway, part of which lies in British Territory, the State concerned should pay compensation for the land so required, to the same extent as Durbars now receive compensation for land acquired from them for railway purposes	1
No. R. 2139-47—L. R. 205-08-6, dated 31st—	
Directing that the power to remit demand notice fees, now exercised by Deputy Commissioners and Sub-Divisional Assistant Commissioners be exercised by Amildars and Deputy Amildars also and issuing a Notification amending Rule 95 (c) of the Mysore Land Revenue Rules accordingly	2
No. R. 2150-59—L. R. 433-10-3, dated 31st—	
Recording the Chief Engineer's report stating that it is impracticable to deepen tank beds by removing silt therefrom and suggesting how the rayats may themselves make such tanks retain sufficient water for irrigation	3

SECTION 2—LAND SURVEY.

No. R. 1909-19—L. S. 26-10-6, dated 4th—	
Sanctioning the introduction of revision settlement into 175 villages which constituted the late Ananthapur Taluk, but now form part of the Taluks of Nagar, Sagar, Shikarpur, Tirthahalli and Shimoga (Kumsi Sub-Taluk)	1—28

SECTION 3—AGRICULTURE.

No. R. 2091-99—Agri. 50-11-2, dated 28th—	
Passing orders on the statement of cattle mortality for the quarter ending 30th June 1911	1—3

SECTION 4—FORESTS.—Nil.

SECTION 5—REVENUE MISCELLANEOUS.—Nil.

II. FINANCIAL.

SECTION 1—GENERAL FINANCE.—Nil.

SECTION 2—SEPARATE REVENUE.—Nil.

SECTION 3—BANKING.—Nil.

SECTION 4—SALARIES AND ALLOWANCES.—Nil.

SECTION 5—CIVIL ACCOUNTS.—Nil.

SECTION 6—CENSUS.—Nil.

III. JUDICIAL AND LEGISLATIVE.

SECTION 1—LEGISLATION.

No. J. 1—Legis., dated 6th—

Directing that a meeting of the members of the Representative Assembly be held for the purpose of electing two members to the Mysore Legislative Council 1

No. Camp J. 6—Legis., dated 10th—

Ordering certain modifications to be made in Rule 10 B added to the Game Rules of 1901, by Notification No. J. 498—Legis. 18-07-2, dated 13th August 1908 1

SECTION 2—COURTS.—*Nil.*SECTION 3—PRISONS AND JAILS.—*Nil.*

SECTION 4—REGISTRATION.

No. J. 1111-19—Regis. 29-10-3, dated 4th—

Issuing orders re registration fees on agricultural leases on *vata* tenure ... 1

SECTION 5—POLICE.—*Nil.*

IV. LOCAL FUNDS AND SANITARY.

SECTION 1—LOCAL BOARDS

No. 3031-2—L. B. 102-11-2, dated 28th—

Reviewing the statement of District Fund works of the Bangalore District that remained incomplete on the 30th June 1911 1—5

SECTION 2—MUNICIPAL.

No. 2511-20—Ml. 281-08-20, dated 6th—

Passing orders in the matter of exempting from payment of octroi duty on articles brought within the Municipal limits in small quantities for private use 1—2

SECTION 3—MEDICAL.

No. 2700-40—Med. 2-08-98, dated 16th—

Directing the inclusion of certain officers of the Prisons Department in Appendix A to the Government Order of the 22nd July 1911, prescribing rules regulating the grant to Government servants, etc., of concessions designed to enable them, when bitten by a rabid animal, to proceed to the Pasteur Institute at Coonoor for treatment 1

No. 2881-921—Med. 33-11-28, dated 25th—

Requesting the co-operation of all officers of the Medical and Sanitary Departments and Deputy Commissioners of Districts with the authorities of the Pasteur Institute of Southern India in the conduct of enquiry as to the proportion of persons who develop hydrophobia after being bitten by rabid animals 2—3

No. 2931-40—Med. 240-10-6, 26th—

Reviewing the Report on the working of the Hospitals and Dispensaries in the Mysore State for the calendar year 1910 4—5

No. 3078-9—Med. 236-09-2, dated 30th—

Directing that the number of Hospital Assistants of all grades be fixed at 183 ... 1

SECTION 4—SANITARY.

No. 2555-95—San. 26-10-17, dated 11th—

Directing the discontinuance of the system of paying rewards for destruction of rats 1—2

SECTION 5—EDUCATION.

No. 2771-2—Edn. 92-11-2, dated 17th—

Sanctioning the opening of 28 Village Elementary Schools at a total cost of Rs. 416 per mensem 1—3

No. 2970-1—Edn. 316-10-2, dated 26th—

Sanctioning the Village School Fund Budget for the year 1911-12 ... 3—5

PART I.

*Proceedings of the Government of His Highness the Maharaja of Mysore,
Land Revenue, dated 2nd October 1911.*

READ—

Proceedings of Government in the Public Works Department No. 1101-4—8799-802, dated the 4th October 1910, observing that if the holders of lands under the Kirangur, Yernane and Kalhalli branch river channels in the Mysore District agree to pay an annual cess of 8 annas per acre, the annual maintenance work thereof may be carried out by the Public Works Department, and requesting the Deputy Commissioner to ascertain and report whether the raiyats agree to the arrangement.

READ ALSO—

Letter No. 215, dated 1st April 1911, from the Deputy Commissioner, Mysore District, to the Secretary to Government in the Public Works Department, stating that almost all the raiyats holding lands under the Kalhalli branch channel both in Nanjangul and Mysore have unanimously agreed to pay the cess at 8 annas per acre provided the work is undertaken by the Public Works Department, and requesting to be informed whether the arrangement applies only to the three branch channels referred to or whether it may be extended to other branch channels as well.

2. Unofficial note by the Secretary to Government, Public Works Department, No. 88, dated the 25th April 1911, transferring the papers for disposal and stating that the only action to be taken in the matter is to sanction the proposed levy of acreage cess.

3. Letter No. 12722, dated the 20th June 1911, from the Revenue Commissioner in Mysore, recommending that, in view of the difficulties in the cultivation of the wet lands below the Kalhalli channel, owing to the fact that it winds round a hill and that large quantities of sand and silt are washed down into it during the rainy season by the water running down the precipitous slope of the hill, causing frequent breaches in it, the raiyats may be exempted from their liability to maintain the channel.

4. Letter No. 7444, dated the 17th August 1911, from the Chief Engineer of Mysore, stating that, on the representation of the Deputy Commissioner that the raiyats would be put to great loss if the maintenance work of the channel were not immediately carried out by Government, he has directed the necessary work to be taken in hand pending sanction of Government to the levy of the acreage cess.

NO. 2-4—L. R. 366-10-4, DATED CAMP MYSORE, 2ND OCTOBER 1911.

ORDER THEREON.—Government are, under the circumstances, pleased to sanction the levy of a cess of 8 annas per acre from the holders of lands under the Kalhalli channel, and direct that the annual maintenance work be done by the Public Works Department. This arrangement may be extended to Kirangur and Yernane channels as well, provided the raiyats holding lands thereunder have executed *mutchalikas* agreeing to pay the cess.

2. In the case of other channels, the question should be considered separately for each channel and the Deputy Commissioner may submit the necessary proposals through the Revenue Commissioner to Government, whenever the raiyats unanimously agree to abide by the conditions under which the raiyats can be allowed to commute their liability.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore, returning the vernacular papers.
The Chief Engineer of Mysore.
The Deputy Commissioner, Mysore District.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

The following papers on the subject of the budget estimates under the Irrigation Cess Fund for the year 1911-12:—

- (I) Official Memorandum No. 12878-85, dated 27—28th June 1911, by the Revenue Commissioner, reviewing the district budget estimates received with the Revenue Commissioner's letter No. 1991, dated 18th August 1911.
- (II) Chief Engineer's note on the above received with the Revenue Commissioner's letter No. 1632 of the 5th August 1911.
- (III) Letter No. 1632, dated the 5th August 1911, from the Revenue Commissioner in Mysore.

I. Official Memorandum No. 12878-85, dated Bangalore, 27—28th June 1911, by the Revenue Commissioner in Mysore

Subject.—

- 1 The marginally noted communications from the several Deputy Commissioners and Presidents of District Boards, submitting budget estimates of receipts and expenditure under the Irrigation Cess Fund for the year 1911-12, and

No. 834, dated 19th June 1911 (Bangalore).
 No. 674, dated 21st February 1911 (Kolar).
 No. 192, dated 20th March 1911 (Tumkur).
 No. 877, dated 20th June 1911 (Mysore).
 No. 194, dated 25th February 1911 (Hassan).
 No. 683, dated 22nd February 1911 (Shimoga).
 No. 671, dated 29th March 1911 (Shimoga).
 No. 821, dated 15th February—2nd March 1911 (Kadur).
 No. 451, dated 24th February 1911 (Chitaldrug).

2. Letter No. 7506, dated 12—14th June 1911, from the Comptroller forwarding a statement of probable assets under the same Fund for the year 1911-12

Receipts.

The estimated receipts for the several districts are as follows:—

			Rs
Bangalore	...	...	27,532
Kolar	...	...	39,630
Tumkur	...	...	35,381
Mysore	...	...	45,294
Hassan	...	...	29,000
Shimoga	...	...	41,489
Kadur	...	...	17,778
Chitaldrug	...	...	12,881

3,48,985 or 2,49,000 in round numbers

The balance of the Fund on 1st July 1911 is estimated by the Comptroller at Rs. 1,10,000. The total assets for the year 1911-12 may therefore be assumed to be Rs. 3,59,000.

Expenditure.

2. The allotments required for expenditure in the several districts on works alone are as shown below:—

District	For the annual maintenance of river channels (mileage allotments)	For repairs to major tanks and channels			Total estimate
		Incomplete works	Flush works	Reserve for unforeseen works	
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	Rs.
Bangalore	..	3,932	69,676	..	61,008
Kolar	..	..	20,000	..	20,000
Tumkur	..	2,845	12,345	..	35,600
Mysore	51,541	6,197	3,250	8,000	72,268
Hassan	16,190	3,500	8,000	1,010	29,000
Shimoga	..	..	7,210	5,790	10,600
Kadur	..	852	11,248	..	15,100
Chitaldrug	..	..	8,540	1,650	10,000
Total	71,031	17,616	1,53,279	13,650	2,55,876

Together with the proportionate cost of establishment, tools and plant (15 per cent), the expenditure as estimated by the District Boards would be Rs. 2,98,976 or 2,99,000 in round numbers. Considering the actual allotments and outlay of the past three years, this estimate appears to be rather too high.

Proceedings of the Government of His Highness the Maharaja of Mysore,

3. The estimates of expenditure submitted by the District Boards may be revised as follows :—

(i) The estimate of the Mysore District provides for the repair of Lakshmanapur channel at a cost of Rs. 2,000, besides the usual mileage allotments for river channels. But there is nothing to show that the former is debitable to the Irrigation Cess Fund. It may therefore be omitted from the estimate under consideration.

(ii) The District Boards of Kolar, Shimoga and Chitaldrug have not reported whether any funds are required for "incomplete" works. The estimates of the amounts required for this purpose in the other districts are stated to be rough, and the District Boards have expressed their inability to furnish details at this part of the year. The amounts required by them may be sanctioned and a provision of Rs. 8,000 may be made for similar works in other districts.

(iii) The provision required for "fresh" works (tanks and channels) may generally be sanctioned, except as regards the Bangalore District. The District Board of Bangalore has not explained the necessity for such a large outlay as Rs. 59,676. Further, it does not appear that all the works shown in the statement have been sanctioned, or that all the works will be completed during the year. Under these circumstances and in view of the allotments granted to this district in previous years, an allotment of Rs. 29,100 would be sufficient for this district.

4. As thus revised, the forecast of expenditure under this Fund, for the next year will be as shown below :—

District	Incomplete works	Fresh works	Repairs to channels	Total	Remarks
1	2	3	4	5	6
	Rs.	Rs.	Rs.	Rs.	
Bangalore	4,000	29,100		33,100	
Kolar		30,000		30,000	
Tumkur	2,800	27,000		29,800	
Mysore	6,500	4,500	22,511	33,511	
Hassan	3,500	8,000	16,490	27,990	
Shimoga		7,200		7,200	
Kadur	850	14,900		15,750	
Chitaldrug		10,000		10,000	
Reserve (for incomplete works)	8,000			8,000	
Total	25,550	1,19,800	69,031	2,14,381	
Establishment at 17½ per cent				37,495	
Tools and plant at ½ per cent				1,072	
Grand Total				2,53,988	Or 2,53,000 in round figures.

II. Note by the Chief Engineer on the Revenue Commissioner's Official Memorandum No. 12878-85, dated 27th June 1911, reviewing and consolidating the budget estimates under "Irrigation Cess Fund" for the year 1911-12.

The Revenue Commissioner proposes to fix the aggregate grant for 1911-12 under the above fund at Rs. 2,53,000 as against Rs. 2,62,000 sanctioned in the previous year. Its distribution under "Works," "Establishment" and "Tools and Plant" stands as shown below :—

	Rs.
Works	2,14,481
Establishment at 17½ per cent on the grant for works ...	37,534
Tools and plant at ½ per cent	1,072
Total	2,53,087
or in round figures	2,53,000

Land Revenue, dated 4th October 1911.

2. The grant for works may, however, be fixed at Rs. 2,15,000 in even thousands and those for establishment and tools and plant at Rs. 37,625 and 375, respectively, as noted in the last para of the note.

Deducting the amount of Rs. 69,031, set apart for the annual repairs of river channels in the Mysore and Hassan Districts, the net amount available for incomplete and fresh works connected with the repairs of major tanks and channels will therefore be Rs. 2,15,000—69,031=1,45,969. Before accepting the distribution of this grant among the several districts as proposed by the Revenue Commissioner in para 4 of his memo, the following points in the detailed district programmes may be noticed:—

(1) *Bangalore District.*—Amount applied for fresh works by the Deputy Commissioner is Rs. 56,044 and not Rs. 59,676 as noted in the statement given in para 2 of the Revenue Commissioner's memo.

(2) *Kolar District.*—The sum of Rs. 5,000 applied for for under "Reserve for unforeseen works" has been omitted by the Revenue Commissioner.

(3) *Tumkur District.*—No remarks.

(4) *Chitaldrug District.*—From the nomenclature and description of the works entered in the President's programme expenditure on items Nos. 7, 8 and 9 noted in the margin, do not seem chargeable to the "Irrigation Cess Fund." The grant for this district may therefore be reduced by Rs. 2,500.

Constructing tanks of Tavandi Chikkere and Doddakere Rs. 500.
Dismantling and rebuilding the front half of the low level sluice of Gowrasandra tank, Rs. 500.
Constructing relieving weirs, etc., of Nagasandra tank channels, Rs. 1,500.

(5) *Mysore District.*
(6) *Hassan do*
(7) *Shimoga do*
(8) *Kadur do* } No remarks.

The total amount required for fresh works is Rs. 14,148 against Rs. 14,248 shown by the Revenue Commissioner.

The total expenditure as estimated by the District Boards would be Rs. 3,01,343 or say 3,02,000 against Rs. 2,99,000 referred to in para 2 of the Revenue Commissioner's memo.

3. *Reserve for unforeseen expenditure.*—Under this head provision should be made separately for each district and not in one lump sum as the latter course would not admit of the total grant for each division and the percentage of "establishment" charges thereon being worked out and published in the Public Works Budget as required under the budget procedure. If particulars are not available for distributing the lump sum, it may be arbitrarily fixed for each division in the first instance and necessary transfer of funds from one district to another effected in the course of the year according as actual requirements are made known. The amount of Rs. 8,000 shown against "Reserve for incomplete works" has been allotted to Kolar, Chitaldrug and Shimoga Districts.

4. The distribution of expenditure under the "Irrigation Cess Fund" may now be fixed as follows:—

District	Incomplete works	Fresh works	Annual repairs of river channels	Total
	Rs.	Rs.	Rs.	Rs.
Bangalore	1,000	20,000		33,000
Kolar	5,000	20,000		25,000
Tumkur	3,000	27,000		30,000
Chitaldrug	1,000	10,000		11,000
Mysore	6,500	4,950	32,511	64,000
Hassan	3,500	8,610	16,189	28,000
Shimoga	2,000	7,000		9,000
Kadur	1,000	9,000		10,000
Marikannave		5,000		5,000
Total	26,000	1,19,969	69,031	2,15,000

Rs

Establishment charges at 17½ per cent	...	...	37,625
Tools and plant at ½ per cent	...	...	375

Total ... 2,53,000

NOTE.—The actual percentage on account of tools and plant charges comes to Rs. 1,075, but to round off the figure a sum of Rs. 700 has been deducted under tools and plant.

Proceedings of the Government of His Highness the Maharaja of Mysore,

III. Letter No. 1632, dated Bangalore, 5—8th August 1911, from K. P. Puttanna Chetty, Esq., Revenue Commissioner in Mysore, to Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

In continuation of this office Memo No. 12887, dated 27th June 1911, forwarding a copy of the consolidated budget estimate under the Irrigation Cess Fund for the current year, I have the honor to forward herewith in original, Chief Engineer's letter No. 6285, dated 31st July 1911, and its enclosures, furnishing his views on the same subject, and to state as follows:—

2. The only important alteration proposed by the Chief Engineer in the estimate of expenditure is the reduction of the allotment for 'fresh work' in the Kadur District, from Rs. 14,000 to Rs. 9,000 and the provision of a sum of Rs. 5,000 for 'Marikanave' (*vide* statement appended to para 4 of the note). It is not clear on what considerations this alteration has been proposed.

3. The President of the Bangalore District Board has, in his letter No. 62, dated 27th July 1911 (forwarded herewith in original with enclosures), intimated that the estimated outlay on the incomplete works is Rs. 5,707 and not Rs. 4,000 as originally reported. The grant for this district may therefore be raised by Rs. 2,000.

4. The total grant required for works will thus be Rs. 2,17,000 instead of Rs. 2,15,000 as originally proposed and approved by the Chief Engineer, the proportionate cost of "establishment," and "tools and plant" being Rs. 37,975 and Rs. 1,085 respectively. The total estimate of the expenditure is Rs. 2,56,060 and may be fixed at Rs. 2,56,000 in round numbers.

The district estimates are also forwarded herewith in original.

No. R. 1896-903—L. R. 137-11-3, DATED BANGALORE, 4TH OCTOBER 1911.

ORDER THEREON.—The submission of the budget has been delayed for about two and a half months this year, though, in Government Order No. R. 2279-88—L. R. 100-10-3, dated 27th October 1910, it was directed that the consolidated budget, as finally revised by the Revenue Commissioner and the Chief Engineer, should reach the Secretariat before the 1st of June.

2. The estimated receipts for the several districts for 1911-12 are as follow:—

	Rs.
Bangalore	27,532
Kolar	39,630
Tumkur	35,382
Mysore	45,294
Hassan	29,000
Shimoga	41,489
Kadur	17,778
Chitaldrug	12,881

Total ... 2,48,986

(or Rs. 2,49,000 in round numbers.)

The Comptroller estimates the total receipts at Rs. 2,50,000 and the probable assets including the opening balance of Rs. 1,10,000 on 1st July 1911 at Rs. 3,60,000 as against Rs. 3,48,000 for 1910-11. These figures are accepted.

3. *Expenditure.*—The reduction of the provision for fresh works in the Kadur District from Rs. 14,000 to Rs. 9,000 and the allotment of Rs. 5,000 for Marikanave works proposed by the Chief Engineer are approved. The allotment of Rs. 10,000 proposed by the Revenue Commissioner for fresh works in the Chitaldrug District will be reduced by Rs. 2,500 for reasons explained by the Chief Engineer in para 2 of his note. The grant for incomplete works in the Bangalore District will, as proposed by the Revenue Commissioner, be raised to Rs. 6,000, the cost of establishment and tools and plant also being proportionately increased. The lump sum provision of Rs. 8,000 proposed by the Revenue Commissioner to be reserved for incomplete works will, as suggested by the Chief Engineer, be distributed among the districts of Kolar, Shimoga and Chitaldrug, as noted in the margin. With the modifications thus effected, the total grant for the year will be Rs. 2,53,000 in round numbers as against Rs. 2,62,000 for the year 1910-11.

	Rs.
Kolar	5,000
Shimoga	2,000
Chitaldrug	1,000

Land Revenue, dated 4th October 1911.

4. The distribution of the grant will be as follows:—

	Incomplete works	Fresh works	Annual repairs of river channels	Total	Remarks
	Rs.	Rs.	Rs.	Rs.	
Bangalore	6,000	29,000	..	35,000	
Kolar	5,000	20,000	..	25,000	
Tumkur	3,000	27,000	..	30,000	
Chitaldrug	1,000	7,500	..	8,500	
Mysore	6,500	4,559	52,511	61,000	
Hassan	3,500	8,010	16,490	28,000

*Proceedings of the Government of His Highness the Maharaja of Mysore,
Land Revenue, dated 31st October 1911.*

READ—

Subject No. 92 of the Proceedings of the Representative Assembly of 1908 regarding the delegation to Amildars of the power of remitting demand notice fees now exercised by the Deputy Commissioners and Assistant Commissioners in charge of taluks under Rule 95 (c) of the Land Revenue Rules.

2. Letter No. 3508, dated the 9th September 1909, from the Revenue Commissioner in Mysore, expressing his opinion in the matter in consultation with the Deputy Commissioners of Districts.

3. Correspondence ending with letter No. 12417, dated the 9th June 1911, from the same officer, furnishing information as to the amount of notice fees collected and the amount remitted in the several districts during the five years from 1904-05 to 1908-09.

4. The representations on the same subject made in the meeting of the Representative Assembly held in 1910.

NO. R. 2139-47—L. R. 205-08-6, DATED BANGALORE, 31ST OCTOBER 1911.

ORDER THEREON.—Government accept the recommendation made by the Revenue Commissioner and direct that the power to remit notice fees now exercised by Deputy Commissioners and Sub-Divisional Assistant Commissioners may also be exercised by the Amildar or Deputy Amildar as the case may be. It should, however, be impressed upon Amildars and Deputy Amildars that they should see that great care and discrimination are exercised in issuing notices, that the demand and recovery of the fees are properly brought into account and that remissions are granted only after record of proper reasons in each case under the Amildar's (or Deputy Amildar's) signature in the register of notices.

2. The following notification amending Rule 95 (c) will be published in the Gazette.

C. S. BALASUNDARAM IYER,

Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Revenue Commissioner in Mysore.

The Deputy Commissioners of Districts.

NOTIFICATION.

NO. R. 2148—L. R. 205-08-7, DATED BANGALORE, 31ST OCTOBER 1911.

Under Section 233 of the Mysore Land Revenue Code, the Government of His Highness the Maharaja are pleased to direct that Rule 95 (c) of the Mysore Land Revenue Rules issued under Notification No. 264—R. 122, dated the 10th July 1901, be amended as shown below:—

After the words "the Deputy Commissioner or the Assistant Commissioner in charge of a taluk" insert the words "or the Amildar or the Deputy Amildar as the case may be."

By Order,

C. S. BALASUNDARAM IYER,

Offg. Secy. to Govt., Gen. & Rev. Depts.

*Proceedings of the Government of His Highness the Maharaja of Mysore,
Land Revenue, dated 31st October 1911.*

READ—

The following letter No. 7690, dated 23rd August 1911, from the Chief Engineer of Mysore:—

“ With reference to your letter No. R. 6784—L. R. 433-10-1, dated 16th June 1911, regarding Subject No. 90 of the Representative Assembly of 1910, I have the honor to state that the work of clearing silt from malnad tanks, suggested by the member concerned, is impracticable on account of the cost. The member has not yet supplied this office with a list of tanks as directed by the Government.

2. The gathering ground of these malnad kattes consists of steep hilly slopes covered with jungle. The vegetable mould formed by the falling leaves mixes with sand and silt brought in during the monsoons and chokes the springs.

3. The obstruction may be removed in most cases by making a central cut till the springs are tapped and then leading water to the sluice. This is what is being done on the *maidan* tanks which have *talpariges*. The raiyats can easily attempt this without making extravagant requests to Government.

4. This representation is similar to what the maidan raiyats constantly ask for, *viz.*, deepening tank beds by removing silt to restore tanks to their original capacity. I would suggest that these two impracticable proposals be ordered to be eliminated from the lists of Dasara Subjects once for all.

5. A separate report will be submitted on Dasara Subject No. 84 of 1910 regarding the classification of tanks as “ Major ” and “ Minor ” in the malnad.

No. R. 2150-59—L. R. 433-10-3, DATED BANGALORE, 31ST OCTOBER 1911.

ORDER THEREON.—Recorded. The Deputy Commissioner is requested to inform the members who mooted the subject accordingly. It is for the raiyats themselves to take the necessary action on the lines suggested by the Chief Engineer.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Chief Engineer of Mysore.

The Revenue Commissioner in Mysore.

The Deputy Commissioner, Shimoga District.

The Deputy Commissioners of other Districts.

Exd.—c. v.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ.—

1. Letter No. 79, dated 7th January 1911, from D. Shama Rao, Esq., Superintendent, Mysore Revenue Survey and Settlement, to the Secretary to Government, General and Revenue Departments.

I have the honour to forward herewith 7 advance copies of report No. 757, dated 22nd September 1910, with appendices and map, from the Deputy Superintendent, Mr. K. Ramaswami Iyengar, on revision of the assessment in 175 villages which constituted the late Ananthapur Taluk of the Shimoga District.

2. It is quite unnecessary for me to follow the Deputy Superintendent through all the details of his proposals, as the proposed rates were decided upon and approved by me after careful consideration and discussion.

3. As usual, copies of the report with its appendices and map have been forwarded to the Revenue Commissioner and to the Deputy Commissioner, Shimoga District, for their opinion, on receipt of which, the same will be forwarded to Government with my remarks.

ENCLOSURE TO THE ABOVE.

Report No. 757, dated Bangalore, 22nd September 1910, from K. Ramaswami Iyengar, Esq., M.A., Deputy Superintendent, Mysore Revenue Survey, to D. Shama Rao, Esq., Superintendent, Mysore Revenue Survey and Settlement, Bangalore.

I have the honour to submit the following proposals for the revision of assessment of 175 villages which constituted the late Ananthapur Taluk of the Shimoga District, as it

Taluku	Villages
Nagar ...	66
Tirthahalli ...	1
Sagar ...	76
Shikarpur ...	23
Shimoga (Kumri Sub-Taluk) 9	
Total ...	175

stood at the original settlement. In 1875, this taluk was abolished and the 175 villages were absorbed in the adjoining taluks of Nagar, Tirthahalli, Sagar, Shikarpur and Shimoga as per details in the margin. Since its abolition as a separate taluk, the villages, except those transferred to the Sagar Taluk, do not palpitate round its once almost central headquarters of

Ananthapur, but have been relegated to the abaxial regions of several taluks subject to influences emanating from distant outside taluk headquarters or trade centres.

The present report deals with precisely the same tract as constituted the late Ananthapur Taluk, till it was abolished in 1875; but by the wholesome operations of absorption and amalgamation, 390 Government villages, which was then the number, have been reduced to 175, whilst similarly the 18 Magnis into which they were divided have now been absorbed into 1 centre Magni and 11 Magnis with other villages of other taluks.

2. *Boundaries*—North.—Villages of the Sorab and Shikarpur Taluks.

West.—Villages of the Sagar Taluk.

South.—The Nagar and Tirthahalli Taluks.

East.—The Tirthahalli, Shimoga, Honnali and Shikarpur Taluks.

3. *Position*.—The tract under report, with an area of 354 square miles, occupies almost the central position of the Shimoga District; it represents an irregular triangle with projecting spurs, having its apex to the north, the southern base, east to west, being 30 miles and the altitude from north to south being 24 miles.

The town of Ananthapur, once the headquarters of this tract, is 30 miles N.-N.-west of Shimoga on the Shimoga-Gersoppa road. Its importance from a trade or an agricultural point of view may be said to be on the decline, though, as a halting station on the way to Sagar, it is much used.

4. *Physical features*.—Though this tract is just outside the true malnad, its ghat forests fully share in the malnad characteristics of picturesque hill ranges and forests, both evergreen and dry, and of meandering streams, presenting the most diversified and beautiful scenery.

The range or ranges of hills, which run northwards from Tirthahalli to the southern borders of the Shikarpur Taluk dividing the Tungabhadra river basin from that of the Sheravati, enter the tract in the south-east spur and run almost parallel to its eastern boundary, with intervals between their component parts; this range also encircles the northern boundary. Three other minor ranges in this tract may be mentioned. One runs north-E.-E. of Ananthapur dividing the drainage of that part between the Salurhalla and a tributary of the Haridravati, with peaks ranging between 2,783 and 2,438 feet above the sea-level; another, a smaller range with a peak rising to 2,317 feet south-W.-W., divides the drainage between the Kumadvati and the Haridravati; and the third, east of Ananthapur, skirts a portion of the eastern boundary joining the beautiful Ikkeri ranges.

5. *Rivers*.—A line drawn from Ananthapur along the tops of hills and the road to Nagar in the south and the ranges of hills north-E.-E. would mainly correspond to the

Proceedings of the Government of His Highness the Maharaja of Mysore,

watershed separating the main lines of drainage; the drainage to the west of this line is effected by the Choradi or Kumadvati river and its main affluent, the Salurhalla; and to the east, by the Haridravati and its affluents; a small portion in the north-eastern spur is drained by the affluents of the Varada.

The Kumadvati, a tributary of the Tungabhadra, rises east of Agastya Parvata near Huncha of the Nagar Taluk, enters this tract on the south near Bidarhalli, while yet a small stream; and after a northerly course of 10 miles, gathering volume, it turns abruptly west and after a course of 2 or 3 miles in the gap between two ranges as abruptly turns north and then flows into the Shikarpur Taluk. Its chief affluent in this tract is the Salurhalla, which rises near Ananthapur. The Haridravati also rises north of Agastya Parvata near Huncha in the Nagar Taluk, enters the tract in the south near Kalkoppu, and after a northerly course of about 8 miles, turns to the east and forms the southern boundary of this tract except for about 5 miles, when it joins the Sheravati which hurls down the ghats in the magnificent Gersoppa Falls. It has also 3 or 4 minor affluents draining the central portion of the tract.

These rivers and their affluents do not contribute towards the irrigational wealth of the tract, as they do not support any system of irrigation. The Kumadvati is bridged in this tract, where it cuts the Shimoga-Sagar road. The Haridravati, cutting the road from Kallurkatte to Ananthapur, is fordable during dry months; but during floods, traffic over this road is often suspended for weeks until the water subsides.

6. *Forests.*—The basin of the Haridravati may be said to be conspicuous for its *kans* or evergreen forests with dry forests or scrub jungle at intervals; this tract may be appropriately described as part of the mixed belt. The Choradi basin is conspicuous for its dry or deciduous forests, rich in timber, diminishing in value towards the north. In the *kans* or evergreen forests in the east, besides the bagani, may be seen magnificent trees—wild jack, matti, honnay, ebony, hoonal, jambay, being the principal kinds valuable for timber. The valuable sandalwood is also scattered unequally over the tract. In the eastern or dry belt, the teak (though not of the largest size), nundi, matti, hoonal, and wild jack are the chief timber-producing trees. The prickly bamboo, both *kirebidaru* and *hebbidaru*, is found almost everywhere flourishing at the cost of more valuable forest trees. Soapnuts, honey, gum and beeswax are some of the paying minor produce in *kans* and some District Forests.

No.	Name	Extent in acres.
1.	Choradi ...	2,209
2.	Tuppur ...	1,580
3.	Halkuni ...	695
4.	Kuni Hosur ...	1,550
5.	Malnadur ...	500
6.	Bavayapur ...	2,118
7.	Masapur ...	309
8.	Chennasettikoppa ...	2,536
9.	Byadarakoppa ...	480

The marginally noted villages have survey numbers allotted to State Forests. These reserves have conserved in no small degree to the timber wealth of the tract, so essential to its agricultural prosperity.

The formation of State Forests in Gilalgundi, Kerechattu, Tangalvadi, Santakere is said to be under consideration in the Forest Department. Forest conservation, by preventing indiscriminate felling of valuable young timber trees for fuel or green manure, is all important even in such a tract as this for retaining or regulating the moisture required for garden and rice lands in valleys bounded by forests or scrub jungle.

7. *Geology.*—The recent discovery of manganese deposits in several places in the southern portion of the range of hills forming, as it were, the western boundary and in the north in the Bellandur hills, may be noted as of interest. The mining operations for manganese ore, once all absorbing and active, has suddenly declined owing to the partial collapse of the European demand for Shimoga ore in paying quantities in favour of better grade ores from other countries, or partly to the dominating influence of some steel and iron manufacturers of England and Germany in regulating the local supply.

8. *Soils.*—The soils in the rice valleys, so characteristic of the malnad, are loose and sandy and generally poor, resting upon laterite or “kankar.” In the garden lands and very low-lying paddy fields, there is rich loam due to natural as well as artificial causes. They are enriched by the fertilizing alluvial deposits from the washings of the slopes of hills, or by annual manuring, or by additions of earth at times mixed with laterite and green leaves and twigs from the Soppinbettas set apart free for the purpose. The dry soils are red or sandy loam with a substratum of laterite or “kankar.”

The inherited experience and skill of generations of garden owners and the principles of manuring and tillage understood by several landowners, more than the natural advantages of rich soils, are responsible for cultivation of the highest order found in the eastern and central portions of the tract.

9. *Climate.*—The rainfall in Ananthapur in 1908 was 54·42 inches; in 1907, 71·19 inches; in 1906, 48·7, the average for 31 years, for which taluk figures are available, being

Revenue (Land Survey), dated 4th October 1911.

77'65. Tagarti is another recording station in this tract. In 1908, the rainfall here was 59'16, the average for 9 years preceding being 54'17 inches. In Baravi, 7 miles south of Ananthapur, 128'36 inches were gauged in 1907; in 1906, 90'89; and in 1905, 88'8, the average for 17 years being 97'6 inches. These figures have been supplied by the Amildar of Nagar. They help us very little as regards distribution in a tract with villages 2 to 8 miles from Sagar which has an average of about 75'25 inches, and 9 miles from Kallurkatte with an average of 101'60 per annum.

The rainfall diminishes both northwards and westwards. It may not be far below the mark if 100 inches in the south be assumed as the highest average, and 50 inches, as the lowest in the north or east.

10 *Crops*.—The mixed belt of evergreen and dry or deciduous forests is also conspicuous for its areca gardens and paddy fields. Rice and garden produce are the chief crops raised. In the western tract of deciduous forests, rice takes the important place with subsidiary dry crops of Ragi, Kurasam and Horse gram which all suffer in years of excessive rainfall. In the eastern tract the valleys here and there are studded with areca gardens with wet cultivation adjoining. Sugarcane is fairly scattered about the tract.

Ragi	...	3 84	The percentage shown in the margin for 1904-05 has been compiled from village statistics obtained from the Amildars of Sagar, Nagar, Tirthahalli, Shikarpur and Shimoga after correspondence and delay.
Gram	...	1 80	
Rice	...	87 70	
Sugarcane	...	1 76	
Others	...	1 23	
Alseanut	...	3 31	
Others	...	0 31	
		100 00	

11. *Communications*.—At the original settlement there was in existence the road which enters Ananthapur from Shimoga and goes on *via* Sagar, Talgoppa and Jog to Gersoppa, there were also two roads from Ananthapur, one south to Nagar and another to Tirthahalli, joining the Amur-Tirthahalli road. The road to Nagar, then incomplete, is now complete though not of much use during the rainy season when the Haridravati is in floods. The Shimoga-Amur-Nagar road, the Nagar-Sagar road and the Sagar-Kollur ghat road pass through parts of this tract. The last two are additions to made roads since the original settlement.

During the currency of the settlement the roads have all been improved to cope with the increased traffic on them.

The northern portion of this tract is in want of a made road. A road from Ananthapur to Bellandur and thence to Ambligola, which is already connected with Shikarpur *via* Salur, will be highly useful in developing the trade of this tract. The rice markets of Shikarpur and Siralkoppa will be better accessible to this tract. The utility of this road was even urged in the proposals of the original settlement.

Chorudi in the west is the terminal station of the Haji Ismail Sait tram-line opened specially for manganese traffic. With the decline of this industry, the tramway, in the absence of heavy traffic, may be improved and made available for both passengers and goods traffic. When once thus improved, its extension to Sagar, a rising trade centre, will become necessary to make the line pay. There are cart-tracks connecting Ananthapur, with Tagarti, Bellandur, Ambligola *en route* to Shikarpur or Siralkoppa. These are useful during dry months. The advantages of converting these into made roads have already been pointed out.

12. *Markets*.—There are no local markets of importance. Weekly fairs are held in Baravi and Ananthapur to supply local wants; the weekly sales are said to amount to Rs. 120. Sagar and Gersoppa for the eastern villages, Amur for the western, Shikarpur and Siralkoppa for the northern, and Kallurkatte for the southern, are among the chief outside markets where a ready sale is found for the surplus produce of this tract. Of these, Sagar is growing in importance, the abolition of the *supari halat* having given an impetus to wholesale trade in *areca*, which was, before, the monopoly, as it were, of outside markets, such as Brur. The export of the valuable nut is no longer confined to *malnad sorceas*, who are gradually losing their hold on their constituents though deep in their books, as it is not possible to trace all sales in the absence of sayer accounts in villages or *kattes*. The itinerant outside buyers of areca for cash are also on the increase. Owing to these, among other causes, the areca growers have been securing the most advantageous terms. The inferior red rice moves westward to Gersoppa or Baidur, and better rice towards Amur, Shikarpur or Siralkoppa. Itinerant buyers from the coast bring their own carts and buy rice at the doors of growers, when prices are easy and favourable. Whether the surplus produce is disposed of at their own doors or in the nearest outside markets, the rayats have begun to secure advantageous terms.

13. *Manufactures and industry*.—There are none worthy of mention, except the manganese mining, on the decline for reasons already stated. The village goldsmith, carpenter and blacksmith find paying employments wherever they are settled.

Proceedings of the Government of His Highness the Maharaja of Mysore,

14. *Irrigational resources.*—These follow rainfall or climate. Owing to plentiful rainfall and supply from springs, the necessity for large irrigation works does not arise in a tract like this. When there is a long break in the monsoon, the raiyats look up to tanks, small or large, for watering their paddy fields once or twice. The subsoil moisture in gardens is also kept up by storage of water in *kattes*, however small, fed by springs during summer. The tanks do not play such an important part here as in the maidan tracts. The tanks in Malandur, Atchapura, Gowja, Kudigere, Barur, Choradi, Malvalli, Lavagere, Madapura and Chennasettikoppa may be considered as important. Most of the smaller tanks and *kattes* have no sluices; whenever water is found necessary for irrigation, bunds are cut up to let out water, and closed when rain water is found sufficient. The tanks in this tract are generally well maintained.

15. *Population.*—In formulating revision settlement proposals, this is an important factor for determining the course of agricultural prosperity or decline during the currency of the original settlement. The popular verdict as to the deterioration of the malnad owing to the abnormal depletion of its population has to be most carefully sifted as to its foundations. For this tract, the census figures, the most reliable to hand, show a loss in total population, while adjoining maidan tracts show varying gains. The four groups into which this tract was divided for purposes of original settlement are well-defined tracts from a climatic point of view, and an examination of the following collected figures for each may be found interesting :—

Group	Number of villages	1871	1881	1891	1901	Per cent
I	45	8,681	8,636	8,501	7,769	—12
II	92	10,718	10,911	10,373	9,778	—9
III	33	4,832	4,896	4,201	3,900	—19
IV	5	616	646	549	416	—32
Total ...	175	25,047	25,289	23,423	21,883	—13

The Khaneshmari figures collected by our measurers and classers by rough and ready methods generally support the census figures.

The loss of population shown in the above statement is not applicable to every village : for 56 villages show varying increases in population and 41 varying decreases. Kasaba Ananthapur without any assessed area attached to it, though historically important, has shown a marked decline in other respects. It shows a decrease in population of 334, i.e., 10 per cent of the total loss for the whole tract. The loss in population traceable mainly to the insanitary or unhealthy condition of this tract during certain seasons of the year would have caused a dislocation in the agricultural economy of the tract but for the annual supply of labour from below the ghats during the dry months to meet all local demands.

The total population as per last census is 21,883, which gives 62 to the square mile. The cultivation being mostly wet or garden requiring incessant labour, the population per square mile for the arable area is 282 and for the occupied, above 483. Assuming an agricultural family to consist of 5 members, there are in this tract 4,336 families. Each family has to cultivate 2 acres dry, 4·5 acres wet, $\frac{1}{2}$ garden as against 1 acre dry, 3·2 wet and a little over $\frac{1}{2}$ acre garden in Sagar. When the natural advantages of water-supply and leaf-manure and the methods of cultivation are all considered, this tract has enough hands to cope with the cultivation of the area under occupation, supplemented, wherever necessary, by outside labour ready to hand whenever wanted.

The Brahmin, the Vokkaliga, the Lingayet, the Holeyra and the Madiga and the Halay Paikas are the leading castes directly or indirectly engaged in agriculture. As separate census figures of castes and creeds are not available for this tract distributed over five taluks, the prosperity or decline of separate castes cannot be traced.

Medical aid is not wanting. There is a Local Fund Dispensary located at Anantapur. The dispensaries at Sagar, Kallurkatte and Kumsi may also be resorted to by villages near them. There is ample scope for a much increased population to earn its living as there are extensive arable lands with natural facilities of water-supply available for expansion of cultivation. How to bring it about is a problem, the discussion of which is outside the scope of this report.

16. *Fairs and festivals.*—There are no local fairs or festivals of any importance.

17. *Agricultural resources.*—The statistics under this head collected, both at original and resurvey, by our classers and measurers with the help of the village servants, may have no claim to great accuracy, as our men have not the requisite time or leisure to check by inspection individual figures; but the figures have their own value in throwing some light on

Revenue (Land Survey), dated 4th October 1911.

the material progress of a tract during the currency of the original settlement. The following statement is useful for comparison:—

Items			At original settlement	As per re-survey	Increase or decrease + or —	Remarks
Houses	...	{ Tiled	84	192	+108	...
		{ Mud	79	58	—21	...
		{ Thatched	3,972	3,868	—104	...
Horned cattle	...	...	30,196	28,997	—1,199	...
Carts	...	{ Halavu Bandi	209	177	—32	...
		{ Common	147	678	+531	...
		{ Small	1	57	+56	...
Ploughs	...	...	3,512	3,961	+449	...
Wells	...	{ Irrigation	No data	31	...	...
		{ Others		658	...	...

There may be nothing to denote any striking or remarkable general progress in the above figures. The increase of over 100 per cent under tiled houses and that with only a net loss of 17 or 41 per cent under houses of all descriptions and an increase of 12 per cent under ploughs in spite of a loss of 13 per cent in population is a satisfactory indication of the agricultural prosperity of the tract. Carts show a remarkable increase of over 155 per cent, a natural result of high prices, improved communications and certain markets. Our figures show a loss of 4 per cent under horned cattle; whereas the figures obtained from the Amildars of Taluks show an increase of over 20 per cent; anyhow the above figures do not disclose any retrograde movement whatever in agricultural stock.

18. *Sales and mortgages.*—I have had examined 331 cases of sales and 311 of mortgages extending over 32 years from 1877 to 1908 in which the aggregate amount of sales or loans exceeded 2½ lakhs. The land, when sold, realized on the average, 10 times the assessment and loans obtained on mortgages, 7 times. These results are very nearly the same as those obtained in the Sagar and Sorab Taluks.

The market value of land is mainly regulated by its rental value which depends upon population and the quality of assessed waste lands that can be obtained on darkhasts. Garden cultivation in this tract has been steadily maintained. When garden owners exhaust their borrowing and staying powers and offer their gardens generally on the verge of ruin for sale, they cannot fetch high prices. It is therefore a matter for satisfaction that the market value of land is as high as it is in Sagar or Sorab Taluk.

19. *Wages.*—Coolies from below ghats are becoming for garden owners more and more necessary as well as expensive. The individual wages *per diem* is 4 to 4½ annas, besides ½ to 1 seer of rice and condiments. Local labour, though cheaper, falls short of the demand. Skilled labour from below ghats is also expensive, the daily wages varying from 8 annas to Re. 1 in addition to rations of ordinary coolies.

20. *Prices.*—The gradual rise in prices is a very important question requiring careful consideration in formulating revision settlement proposals. The original settlement was based on the price of rice fluctuating between 13 and 16 seers and ragi, 36 and 43 seers per rupee. The general rise in the prices of the principal food grains throughout the malnad and maiden parts of the Province is undoubted and well established by the figures annually published by the Director of Statistics. With improved and new roads connecting Shimoga and Kadur Districts with the coast and the opening of the Bangalore-Harihar, and Birur-Shimoga Railway lines, equalisation of prices is the rule. The prices for the tract closely follow the figures quoted for the district headquarters, the difference at times hardly covering the cost of carriage and the middleman's profits. The Amildar of Sagar was only able to furnish a list of prices of articles of food in Kasaba Ananthapur for 12 out of 34 years, the Nirak patties for the remaining years not forthcoming in the Taluk Records. For the years 1893, 1894 and 1895 the average price of 2nd sort of rice was 12 seers per rupee, and of ragi 24 seers; for five years from 1899 to 1903 the average for 2nd sort rice was 11 seers and of ragi 19 seers; for 1904 to 1907 the average for rice was 10½, for ragi 15 seers. The figures for rice agree with those given for the district by the Director of Statistics. The accuracy of the taluk figures given for ragi is not borne out by the figures published for the district, the former being much less than the latter.

Proceedings of the Government of His Highness the Maharaja of Mysore,

In the absence of the taluk information the following figures of the Shimoga District compiled from the *Mysore Gazette*, may show the course of prices which determined the original settlement:—

	Rice	Ragi
1872	13'7	43'9
1873	14	36'4
1874	16'4	42'0

The following figures compiled from the same source excluding the abnormal prices of the Great Famine of 1876 to 1878, will also show how the level of prices subsequent to the introduction of the original settlement was maintained:—

	Rice	Ragi
1875	17	31'3
1879	13'8	30'11
1880	14'6	34'7
1881	15'10	42'14

There are very few villages in the tract that are inaccessible to or very remote from outside markets where the surplus produce may be disposed of to advantage. The striking increase in the number of common carts shows that advantage has been taken of the improved and extended means of communication intersecting the tract.

The question of rise in prices during the currency of the original settlement was elaborately dealt with by Colonel Grant, the then Survey and Settlement Commissioner, in his supplementary report on the Sorab Taluk and his conclusions have been accepted. After considering all the data available, I shall not be beside the mark if I assume that for purposes of this report the price of rice, 2nd sort, has risen by 30 to 40 per cent, and ragi by over 100, during the currency of the original settlement. There is no prospect of prices ever going down to their former level; the increase in prices is not all gain; the cost of cultivation, of labour wholly or partly paid in kind and of articles of food not locally produced and of the improved standard of living generally adopted may all, in more or less degree, constitute a partial set off against the increased prices. But the net gain is a very advantageous factor in favour of the raiyat that cannot in this connection be ignored or belittled. This tract is, besides, in touch with some leading markets, the prices ruling there being generally known to sellers here.

21. *Past and present survey.*—There are now 10,486 new or resurvey numbers against 9,282 original survey numbers, an increase of 13 per cent, due to paiki numbers or recognized shares being made into new survey numbers whenever they exceeded the minimum prescribed to new small numbers made out of large numbers for extension of cultivation and to the measurement of new roads as required by rules. The increase in numbers represents only a fraction of measurement done during resurvey; the fixing of missing boundary marks according to original measurements and that, in a tract full of natural obstructions, the ascertainment of different descriptions of land in mixed numbers, demarcating old and new made roads, setting apart proper margin, took up much valuable time of our men.

The area of each description of land according to past and present survey is also below:—

Description	Former survey	Present survey	Increase or decrease
Arable dry	21,199	21,325	+ 126
Rice or wet land	27,765	27,708	— 57
Garden land	972	1,002	+ 30
Unarable land	173,722	176,688	+ 2,966
Total	223,658	226,723	+ 3,065

A difference of 3,065 acres or 1'4 per cent more by resurvey is of no consequence as the area of each survey number was during resurvey subjected to scrutiny both in field and in office. The difference under arable area is only an addition of 99 acres, a very insignificant one for an extensive tract like this not free from natural obstructions. The loss under wet land is more than made up by the gain under garden and dry.

22. *Reclassification.*—Reclassification of water-supply to wet and garden lands has been resorted to, whenever necessary, especially in the case of abandoned or new gardens or in clear cases of diminished or improved water-supply. For the garden villages of this tract, our measurers were directed to collect information regarding crops with special reference to the number of areca trees under rough and ready methods, so that the changes in their condition, if any, since the original settlement may be known in revising the rates. This work,

Revenue (Land Survey) dated 4th October 1911.

carried out under fear of test, has been found very useful. The under increase garden area, though not much, is a matter for satisfaction. The original soil classification has in no case been interfered with. The new arable survey numbers formed out of large unarable ones were, for the first time, classed as to soil and water-supply, whenever the latter was necessary.

23. *Revenue history*—Before commenting on the incomplete statistics available under this head, I beg to bring to your notice the increasing difficulties that have to be faced in collecting statistics prescribed by Government orders from the Amildars of taluks under revision. Repeated urgent requisitions at times end in receiving incomplete information, the plea urged for the same being the absence of the necessary accounts or records said to be destroyed under rules. The transfer of villages from one taluk to another at their reconstitution and the ill-sorting of records forwarded from one office to another, add to the difficulties. For this tract figures for tracing the revenue history had to be obtained from no less than 5 taluks; 64 references from this office, many of them being reminders, resulted in the collection of incomplete data, sometimes not even in the form prescribed, as was the case in the accounts received from the Deputy Amildar of Kumsi, which had to be recast. These had to be supplemented by collection figures in your office for purposes of comparison, though the latter do not furnish figures regarding the several descriptions of land under occupation as required by Government order. The inordinate delay in collection of statistics has already formed the subject of a separate letter No. 511, dated 15th February 1910. Unless the Amildars collect their shanbhogs and prepare the necessary statistics for submission of revision settlement proposals, just as they do during the introduction of the revision settlement or when the annual jamabandi accounts are prepared, there is no prospect of receiving the requisite figures even after a delay of months.

24. The following is an excerpt for quinquennial periods from 1875-76, collated from collection figures annually submitted to your office —

Periods	Government occupied lands					Government unoccupied lands				Remarks
	Average acres	Average assessment	Average revenue	Revenue realised	Percentage of increase or decrease as compared with the year 1875-76	Average acres	Average assessment	Percentage of increase or decrease as compared with the year 1875-76		
1875-76	36,199	79,879	16	79,863	.	21,377	19,842			
1876-81	31,127	78,511	95	78,792	-1	20,675	20,695		+5	
1882-86	31,956	76,251		76,247	-5	21,814	20,161		+1	
1887-91	31,526	75,720	20	75,700	-5	22,661	23,211		+15	
1892-96	32,001	75,992	6	75,986	-6	22,083	21,107		+22	
1897-01	32,301	76,218	5,545	70,674	-13	21,814	23,985		+21	
1902-06	31,745	75,362	5,480	69,559	-11	21,229	24,117		+25	
1906-07	31,771	75,280	5,452	69,828	-14	21,510	24,583		+23	

The above figures are useful only for rough and ready comparison as the occupied and unoccupied areas therein are swelled by very lightly assessed *kans* which the Akarbands treat as *kharab*. The occupied area for 1875-76 is, as shown above, 36,499 acres, whereas the original settlement report shows the same as 31,891, the difference, 4,608 acres, is the extent of occupied *kans* included in the revenue accounts. The first quinquennial period shows a decrease in revenue of 1 per cent and the second of 5 per cent as compared with the 1st year of settlement, and the decrease has also continued since 1896 in addition to the special remissions on gardens then granted. The annual decrease in revenue exclusive of garden remissions varying from Rs. 1,000 to Rs. 4,000 per annum, falls short of the anticipated annual decrease of Rs. 5,000, if not more, when the original settlement proposals were formulated; for, when the 'Waig' tenure was superseded by Survey and Settlement, which brought every gunta of occupied land to account and the increase or decrease in demand of land revenue was no longer a matter subject to the sweet will and pleasure of shanbhogs, the raiyats, in the light of some years' experience gained, commenced to resign uncultivated lands held hitherto, as it were, rent-free as part of their 'Wargs'; time was, of course, necessary to assure themselves that such lands would not be taken up by their tenants or other unwelcome neighbours or that they had no immediate prospect of bringing them under the plough with profit. To counteract this, there was no increase in agricultural population. When once the revenue demand adjusted itself in the 1st quinquennial period to the actual margin of cultivation, it has been remarkably steady with slight variations due to years, a few and far between, of abnormally deficient or unseasonable rainfall.

25. The following is an excerpt with interesting details, as to several descriptions of land from Appendix A, which is the revenue statement compiled from figures incomplete as they are, received from taluks. These figures do not cover the 1st quinquennial period, the

Proceedings of the Government of His Highness the Maharaja of Mysore,

most important one when the tract had to adjust itself to a systematic revenue administration based upon correct accounts :—

Periods			Government occupied lands								Amount realized	
			Dry		Wet		Garden		Total			Remission

The above figures for the years available afford no material for useful comparison in tracing the course of cultivation under various descriptions of land.

The dry area under occupation has steadily risen by 13·8 per cent since 1892-93, and the wet area, the mainstay of the population, has been very remarkably steady, the variations being very insignificant. The old garden area, in spite of the special liberal remissions, shows a small decrease of 2·7 per cent.

The highest revenue year was, according to figures obtained from your office, 1878-79, with a revenue of Rs. 79,942 inclusive of the light assessment on *kans*, and the lowest, 1904-05 with Rs. 68,383, exclusive of special garden remissions. According to the taluk statistics, the year of the lowest revenue was 1905-06 with a revenue demand of Rs. 67,798, exclusive of garden remissions.

For this tract both the years 1904-05 and 1905-06 were bad. In 1904-05, the earlier seasonable rains were followed by an unusually long break from August to October. In 1905-06, the rainfall at Ananthapur was the lowest on record, besides being scanty and unsensational. The outturn of crops was, during both these years, less than normal, and naturally affected the revenue demand as well as collections.

The tract regained its lost ground in 1906-07. The revenue collections have thus been remarkably steady, with an equally steady maintenance of the margin of wet and garden cultivation.

The ordinary remissions were insignificant. Since 1896, the special garden remissions have annually averaged Rs. 5,603.

26. I have now touched upon several important factors requiring consideration in the present revision, making the best use of the available data in assigning each its proper place. To briefly sum up: the general rise in prices of food grains and of supari is unquestionable, and is partially set off by the increased cost of cultivation, entailing payments both in kind and coin. The agricultural resources have shown expansion under the important heads of tiled houses, ploughs and common carts. The loss in population and other disadvantages have also been dwelt upon.

Revenue (Land Survey), dated 4th October 1911.

27. *Grouping wet lands.*—After giving this subject my best consideration and noting the course of cultivation in each village, I have arrived at the conclusion that no useful purpose will be served by disturbing the original grouping. The enhanced advantages of some villages are not of a sufficiently high order to require their elevation to a higher group necessitating sudden increases, the disadvantages of some villages in having little or no population, have not affected the course of cultivation, and do not therefore demand being placed in a lower group than before; but the favored treatment which some of the very small and poor villages received at the original settlement by their being placed one class lower than their position demanded within the limits of a certain group, continues also under the proposed grouping.

28. I propose then, to divide 175 villages under report into the following groups with reference to the assessment of wet lands —

Group I—45 villages on or near the important road from Shimoga to Gersoppa *via* Sagar, or possessing a superior climate and population well situated for the Sagar market or round about Ananthapur.

4 *Udapa* villages enjoying irrigation facilities or possessing advantages of market or of public roads, have also been retained in group I. The maximum wet rate will be Rs. 6-4-0 against Rs. 6 of the original settlement. This is a shade lower than the maximum adopted for many of the adjoining villages of the Sagar Taluk. A few villages of this group are very close to Sagar. Garden maximum will be nominally Rs. 16, the highest rate adopted for well-maintained area gardens when special garden remissions were granted in 1896.

Group II.—92 villages forming the central part of the tract or adjoining the villages of group I, and some villages in the south-west and southern spurs fairly situated as regards the Shimoga-Gersoppa or the Nagar-Sagar or Anant-Nagar roads not so favourably situated as to climate or markets as the villages of group I. The wet maximum will be Rs. 5-12-0 as against Rs. 5-8-0 of the original settlement. The garden maximum is nominally Rs. 16, the highest rate adopted when garden remissions were granted and reached only in a few cases of excellently maintained area gardens.

Group III—33 villages further away from the Shimoga-Gersoppa road situated in the hills north or in south-east with advantages of climate or markets inferior to villages of group I. The wet maximum will be Rs. 5-4-0 as against Rs. 5 of the original settlement. The maximum adopted for the villages of this group in the north is four annas less than that adopted for the adjoining villages of the Shikarpur Taluk. The former, though having a better rainfall, are further away from the market of Shikarpur or Snalkoppa.

Group IV—5 villages in the extreme south-east situated amidst hills and forests, remote from roads having but a scanty population. Taking these disadvantages into consideration, the original wet maximum Rs. 4-8-0 has been retained.

A very small addition of 1 annas has been made to the wet maxima for groups I, II, and III, and these are a shade lower than those sanctioned for some of the adjoining villages of the Sagar, Sorab and Shikarpur Taluks at their revision settlements, or of the Shimoga and Honnali Taluks at the original settlement.

29. *Grouping dry crop lands.*—The dry crop lands are very insignificant in comparison with wet lands. The rainfall favourable to one is unfavourable to the other. The heavy rainfall of the west or the south is necessary for profitable wet cultivation, whereas it is adverse to dry crops. The same difference exists between the southern and northern villages. The rainfall diminishes eastwards or northwards. The following, then, are the groups for dry crop lands —

Group I.—A small group of seven villages to the extreme east near Choradi on the Shimoga-Gersoppa road.

The maximum for these villages will be Re. 1-6-0 as against Re. 1-4-0 of the original settlement. The increase is so trifling and out of all proportion to the rise in prices, that explanation may not be needed.

Group II.—114 villages in the north, centre, or south-eastern parts with more rainfall than the villages of Group I.

The maximum for these will be Re. 1-2-0 against Re. 1 with only a small increase of 2 annas.

Group III.—54 villages in the west, south-west and south where the annual rainfall reaches 100 inches. On account of the very uncertain results of dry crop cultivation, the original maximum of 12 annas has been retained.

The groupwise numbers of villages given in this report are, owing to absorption and amalgamation of villages after the original settlement, smaller than those given in the original settlement reports.

Proceedings of the Government of His Highness the Maharaja of Mysore,

30. *Garden maximum.*—The garden rates have been, on the principle laid down by Government, revised in such a manner as not to exceed the total amount of garden assessment rates in force after the grant of special garden remissions in 1896. In the case of deteriorated or abandoned gardens, the rates were revised on the basis of their altered conditions, and are generally lower than those fixed when special remissions were granted in 1896. Very moderate rates have been levied on new gardens opened out during the currency of the settlement. They are a shade higher than the rates on adjoining wet lands on which single crops are raised.

31. The effect of the proposed rates will be readily seen by a reference to the following statement for the occupied lands only :—

Group	Description of land	Old 1906 07			New			Increase or decrease	Per cent
		Acres	Assessment	Average rate	Acres	Assessment	Average rate		
I	Dry	2,605	Rs. 1,033	Rs. a. p. 0 6 3	2,477	1,053	0 6 6	+0 0 3	+5
	Wet	6,391	17,991	3 3 6	5,587	18,729	3 3 6	+0 2 2	+4
	Garden	562	6,671	11 13 7	559	6,561	11 11 11	-0 1 8	-2
	Total	8,739	25,675	2 11 11	8,623	26,376	3 0 11	+0 2 0	+3
II	Dry	3,732	1,387	0 5 10	3,657	1,491	0 6 6	+0 0 8	+9
	Wet	8,945	25,018	2 12 9	8,903	26,090	2 11 9	+0 2 0	+4
	Garden	293	3,142	10 11 7	329	3,355	10 0 9	-0 10 10	-5
	Total	12,960	29,527	2 4 5	12,889	30,929	2 6 3	+0 1 10	+4
III	Dry	2,208	840	0 6 1	2,190	931	0 6 10	+0 0 9	+11
	Wet	4,533	11,789	2 9 7	4,533	12,419	2 11 8	+0 2 1	+5
	Garden	41	373	9 2 4	61	481	7 14 2	-1 4 2	+28
	Total	6,787	13,001	1 14 8	6,804	13,834	2 0 6	+0 1 10	+6
IV	Dry	191	71	0 6 2	189	81	0 6 10	+0 0 8	+9
	Wet	491	1,220	2 7 9	472	1,174	2 7 10	+0 0 1	-1
	Garden	13	110	8 7 6	24	162	6 12 0	-1 11 5	+17
	Total	695	1,401	2 0 1	685	1,117	2 1 1	+0 0 9	+1
Grand Total	Dry	8,726	3,394	0 6 0	8,513	3,572	0 6 9	+0 0 9	+8
	Wet	19,365	56,021	2 13 10	19,515	58,352	2 15 10	+0 2 0	+4
	Garden	910	10,208	11 6 1	973	10,613	10 12 10	-0 8 8	+2
	Total	29,201	69,613	2 6 2	29,001	72,436	2 8 0	+0 1 10	+4

The above calculations are based upon the garden assessment in force, the special garden remissions granted in 1896 being excluded.

If the special garden remissions of 1896 were included, the average rate per acre for the whole tract would be Rs. 2-9-4 as against Rs. 2-8-0 at the proposed rates with a distinct gain to the riyat of 1 anna 4 pias per acre as compared with original rates. The increase of 9 pias per acre under dry does not call for remark, if the important part which dry cultivation plays in the agricultural economy in the eastern portion is duly considered. The wet acres under revision show only a small decrease of 50 acres which is more than made up by the increase of 63 acres under garden. The new gardens opened out since the original settlement amount to 52 acres, mostly converted from wet.

As wet cultivation is the mainstay of the tract, it may be useful to compare the wet average rate of groups with those of their adjoining villages in Sagar, Sorab or Shikarpur Taluk where the revision settlement has been welcomed.

The wet average of groups I and II, viz., Rs. 3-5-8 and Rs. 2-14-9, compare very favourably with Rs. 3-9-7 and Rs. 3-0-1 of the adjoining villages of the Sagar Taluk.

The wet average of group III is Rs. 2-11-8 as against Rs. 3-8-9 of the adjoining villages of the Sorab or Rs. 3-1-7 of the Shikarpur Taluk. The small increase of 2 annas per acre cannot work any hardship whatever.

Revenue (Land Survey), dated 4th October 1911.

32. *Effect of proposed settlement by groups.*—This is shown in the following statement:—

Group	Number of villages	By former survey		By revision survey				Total		Increase or decrease per cent on occupied area
				Government occupied lands		Government unoccupied lands				
		Acres	Assessment	Acres	Assessment	Acres	Assessment	Acres	Assessment	
			Rs.		Rs.		Rs.		Rs.	
I	45	8,759	25,678	8,623	26,456	6,519	6,853	11,112	33,209	+ 4
II	22	12,960	29,527	12,889	30,829	9,610	11,578	22,399	12,407	+ 1

IV	6	695	1,401	695	1,417	816	1,362	1,501	2,779	+ 1
Total	175	29,201	69,613	29,001	72,436	20,683	25,639	49,681	98,075	+ 1

The increase of Rs. 2,823 or 4 per cent over the collections of 1906-07 has, as already pointed out, been obtained by small increases in 3 wet and 2 dry groups, of 4 annas and 2 annas per acre respectively. The percentage of increase in group III is relatively higher on account of increased areas under both wet and garden. The proposed increase is fairly distributed over groups I, II, III, corresponding with variations in cultivation and the light assessment proposed.

33. The following is a statement of the arable lands still unoccupied and of the assessment they will bear under my proposals, with the corresponding figures of the original settlement taken from the original settlement report of the late Ananthapur Taluk for comparison:—

Description	As per original settlement report			As per revision settlement		
	Area	Assessment	Average	Area	Assessment	Average
		Rs.	Rs. a. p.		Rs.	Rs. a. p.
Dry	11,436	1,341	0 6 1	12,768	5 132	0 6 5
Wet	6,713	14,170	2 1 9	7,887	20,408	2 9 2
Garden	20	155	7 12 0	28	199	7 1 10
Total	18,171	15,666	1 0 5	20,683	25,639	1 3 10

34. The dictum that one of the main tests of the material prosperity of a taluk may be found in the extent and quality of its unoccupied lands or the proportion it bears to the occupied area, cannot be applied to a tract like this where the original settlement introduced order in place of chaos in the revenue accounts, which indicate the expansion or contraction of individual holdings. The low morals of the village servants and the recognition of the "Warg" tenure enabled people to hold lands that they did not want for actual cultivation as they were almost rent-free, besides being looked upon as appendages to their fields under actual cultivation. The old accounts did not afford any clue to fix "Wargs" by metes and bounds.

35. The original settlement, as already observed in para 24 *supra*, brought every ganta of occupied land to account and increased the land revenue demand beyond the raiyats' expectations. The question with them became one of safe contraction without imperilling their position with their tenants rather than of expansion. The original settlement proposals, therefore, provided for a loss of Rs. 5,000, if not more, by resignations of superfluous lands. After the raiyats once made these adjustments by giving up useless lands, the revenue collections have been steady, showing that the rates originally proposed and sanctioned for this tract were moderate. The increase under unoccupied area is only 2,512 acres with an assessment of Rs. 3,113 at the average rate of Rs. 1-3-10 per acre. For reasons already pointed out, this falls short of the anticipations formed when the original proposals were formulated. Under wet, lands with certain irrigation are available at easy rates. The very moderate rates proposed to be levied for the unoccupied gardens will be no burden whatever when they are taken up.

My proposals are expected to yield a total assessment of Rs. 72,436 as against Rs. 69,613, the actual collections of 1906-07, being a small increase of Rs. 2,823 or 4 per cent. The limit of 66 per cent prescribed for villagewar increase of assessment has not been exceeded in any case, as such increases generally occur when villages are elevated to higher groups or where there is sudden expansion of cultivation due to new irrigation work, etc., at Government cost. The adequacy of such a small increase, if not the increase itself, may be open to question. If the loss in population, due to several causes, had seriously affected cultivation necessitating periodical remissions or adoption of coercive measures or if the contraction of agricultural resources were in even proportion to the loss of population, or if the value of land had diminished, or if the raiyat had no market for the surplus produce in good years, for want of communication, a good case would have been made out for proposing a reasonable decrease in assessment to meet the requirements of the situation. I have tried to show that such a state of things does not exist in any part of the tract. With an increase of 2 to 8 per cent in the adjoining villages of the Sagar Taluk, of 14 per cent in the Sorab Taluk, and of 8 per cent in the Shikarpur Taluk, all lately resettled, the small increase of 4 per cent, obtained by an addition of 4 annas per acre to the maxima of wet lands in the villages of groups I, II and III, errs on the side of moderation and is likely to be received by the raiyats with satisfaction. Moreover, this increase bears but a very small ratio to the general rise in prices.

37. The magnanimous abolition by Government of the *halat* of 12 annas per maund on the supari of all kinds—the valuable *desarar* as well as the inferior *gottu*—has already inaugurated a hopeful state of things for garden owners of the western villages of this tract. With the abolition of the *halat*, all inquisitorial restrictions on supari trade have disappeared. It is no longer a monopoly in the hands of the local sowers and their agents in trade centres such as Birur and Bellary. The growers are able to dispose of their produce to their best advantage either to itinerant merchants at their doors or in the most profitable markets. The sowers, in the absence of all *sayer* accounts, are unable to find out how their *areca* constituents dispose of their produce.

38. The Kole Roga continues to be a pest of areca gardens. It is too soon to foretell the future of the experiments carried on by the Entomologist for eradicating this disease.

39. *Cesses*.—The Local Fund, the Irrigation and the Areca cesses will be a separate levy under separate rules. Being fixed in proportion, they require no estimate.

40. In conclusion, I beg you to obtain the sanction of Government for the proposed rates.

41. A coloured map showing the groups, etc., and the usual appendices are herewith submitted.

42. The settlement will, of course, take effect from the year following that in which it is announced.

Proceedings of the Government of His Highness the Maharaja of Mysore,

APPENDIX A.—Revenue statement for the 175 villages of the late Ananthapur Taluk of the Shimoga District from 1875-76 to 1906-07.

Proceedings of the Government of His Highness the Maharaja of Mysore,

II. Letter No. 103, dated 23rd March 1911, from the Superintendent, Mysore Revenue Survey and Settlement, to the Secretary to Government, General and Revenue Departments.

In continuation of my letter No. 79, dated 6th January 1911, I have the honour to forward herewith copy of Letter No. 4261, dated 28th February 1911, from the Deputy Commissioner of the Shimoga District, expressing his opinion on the proposals made for revising the assessment of 175 villages, which constituted the late Ananthapur Taluk. As the Deputy Commissioner fully concurs in the proposals made, I have little to add by way of remarks or further explanation.

2. The graduation of the increase in the rates according to classes, suggested in para 10 of the Deputy Commissioner's letter, is neither necessary nor desirable, as different maxima are adopted for different groups and the rates are regulated by different "Jantries." The Dharsod rules or the elimination of fractions also operates to equalise assessments in cases where the difference is inconsiderable. By these means, the adjustment of rates is effected equitably.

3. The opinion of the Revenue Commissioner on the proposals in question has not been received yet and I have addressed him again in the matter.

ENCLOSURE TO THE ABOVE.

Letter No. 4261, dated 28th February 1911, from K. Sreenivasa Rao, Esq., Deputy Commissioner, Shimoga District, to the Superintendent of Mysore Revenue Survey.

With reference to your letter No. 435, dated 7th January 1911, forwarding for my opinion proposals drawn up by Mr. K. Ramaswami Iyengar, Deputy Superintendent, Revenue Survey, for the revision of the assessment of 175 villages which constituted the late Ananthapur Taluk, I have the honor to state that I concur in the main with the Deputy Superintendent in the views set forth in his admirable report.

2. It is clear that the tract under resettlement has remained almost stationary since the original settlement. There has been a decrease in population, and in the number of cattle on the one hand, and an increase in the number of tiled houses, ploughs and carts on the other.

3. Though no important new roads have been opened since the original settlement, all existing roads have been improved and the increase in the number of carts is evidence that the tract has been participating fully in the advantages of better communications.

4. It is to be regretted that the data now available are incomplete and consist of scraps of information from various sources pieced together. The results of the general and agricultural census now in progress would furnish accurate statistics on which a definite statement of the present economic resources of the tract could be safely based. To avoid delay, however, I have preferred to submit my views on the basis of the information collected by the Survey Department.

5. There seems to be no doubt that, on the whole, there has been an increase in agricultural resources. It is, however, a fact that despite the increase in agricultural equipment and the inducement of a rise in prices, the population is hardly capable of maintaining the cultivation at its former level, and that there is no tendency whatever towards an expansion of agriculture. Garden owners are largely dependent on imported labour, there is a steady upward trend in wages that acts as a drag on the natural operation of a rise in prices. It cannot be said that the Manganese industry competes with agriculture for labour, as the coolies engaged there are mostly imported from Madras and Bombay Presidencies. In fact the expansion and contraction of manganese operations have had no disturbing influence on agricultural conditions in this locality.

6. From the figures given in para 24 of the report under reference it will be seen that the effects of the abolition of the rigid *warg* system had been exhausted the margin of cultivation has been remarkably steady. This would seem to show that the prices of agricultural produce are being counterbalanced by other causes which have been preventing its natural effect of lowering the margin of cultivation. Probably these counterbalancing causes will be found to consist in decrease of population, greater cost of agriculture and growing insalubrity of the climate. It would be seen that fully 20,683 acres of arable land are lying unoccupied and that there has not been even a tendency towards their occupation.

7. It is undoubted, however, that there has been a marked and steady rise in prices. This rise works out to about 40 per cent as regards rice and 100 per cent as regards ragi. After making all due allowances for the increased cost of production, etc., the standard of living, there can be no doubt that a margin of profit is left to the cultivator which would furnish a legitimate ground for a slight increase in assessment.

8. The original division into groups has been left undisturbed after a careful study of the present conditions. The proposed rates provide only for an average increase of 8 per cent in the dry and 4 per cent in the wet rates.

Revenue (Land Survey), dated 11th October 1911.

9 Wet cultivation is the most important feature of the tract under resettlement and the revised rates proposed compare very favorably with those prevailing in the adjoining villages of the Sagu, Sorab and Shikarpur Taluks for land of the same class.

10 Altogether the increase of 4 per cent which has been secured mainly by an increase of 4 annas in the wet maxima of groups I, II and III is fully justified by the pronounced rise in prices since the last settlement and may be sanctioned. It may perhaps be more equitable to graduate the increase according to the class, than to keep the same uniform net increase for all classes. What I mean is that as the increase per acre of wet assessment in group I is 4 annas, we might have an increase of 3 annas and 2 annas per acre, respectively, over the II and III groups instead of a uniform increase of 4 annas throughout. This is, however, a matter of detail and does not deter me from expressing my full concurrence with the report under reference.

11. In conclusion, I regret that the Amildars did not furnish the statistics required by the Deputy Superintendent, in a complete form and without much delay. With my knowledge of the principles on which the record-sorting rules are based, I am inclined to think that the reasons assigned by the Amildars for incompleteness of the information furnished by them only indicate their ignorance of where to look for it. No record is destroyed unless the information it contains is available from some other and permanent record in which it has been incorporated. It must also be remembered that when records are transferred from one office to another a fairist invariably accompanies them to obviate confusion. It seems to me probable that the dilatoriness of the Amildars is due more to the ignorance of what exactly is wanted from them, than to any inherent incipacity or unwillingness on their part. The Government orders prescribing the accounts and statistics to be furnished for use as data for revision of settlements are not all in one place, or in a form convenient for ready reference, and the absence of a compilation of principles and methods like Rao Bahadur Adinarayan's *Madras Manual of Instructions for Resettlements* renders it difficult for them to understand at once the relevancy or importance of the information they are required to supply.

III Letter No 11062, dated 20th April 1911, from Rajakanyaprabhu 1 Hanqaswami Hyengar, Esq., B.A., B.L., B.B., Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

With reference to letter No 139, dated 7th January 1911 and No 604, dated 23rd March 1911, from the Superintendent, Revenue Survey and Settlement in Mysore, forwarding for my opinion copy of report by the Deputy Superintendent of Survey on the Revision Settlement of 175 villages of the late Ananthapur Taluk, and Shimoga Deputy Commissioner's opinion on the subject, respectively, I have the honor to express my general concurrence with the Deputy Superintendent and to make the following observations on the various points dwelt upon in the report—

Para 6—In interior malnad where health is unsatisfactory and population going down, it is very necessary that great discrimination should be used in reserving new forest areas. Rather than bring them too near cultivation and inhabited villages, to the detriment of public health, crops and cattle, endeavours should be made to improve the existing forests and stock them with trees likely to supply valuable timber, fuel and leaf manure. The last two products are indispensable requisites in the malnad and especially in this tract characterised by soil, poor in quality, loose and sandy.

Para 10—In all settlements, considerations as to the nature and extent of crops grown imply such an important part that it is very necessary to obtain accurate data about them. It is a great pity the Revenue authorities have not been as helpful as they should have been to the Settlement Department. But the information furnished could easily have been made more full than it is. The mere average extent under different crops can scarcely convey any correct impression as to the profits of cultivation or the general condition of the cultivators. It is the quantity of the produce realised which can enable one to judge of the profitable nature of the occupation and some attempt should have been made to collect statistics by comparing existing information or by making actual experiments.

Taking the population of the tract at 20,000 or about 4,000 families of five heads per family, we have about five acres wet, 2 acres dry and $\frac{1}{2}$ acre garden for each family adopting the figures for 1906. This should *prima facie* imply a fairly prosperous state, but from what I know of the malnad, the fertility of the dry and much of the wet land is comparatively so poor that much force cannot be attached to it. This only goes to emphasize the need for accurate information as regards average produce, per acre of different crops.

Proceedings of the Government of His Highness the Maharaja of Mysore,

Para 17.—The figures given in this para show a slight decrease under the head of cattle. On the whole the statistics of agricultural resources are not very encouraging. The apparent increase in tiled houses must not be judged by itself but rather with reference to the proportion it bears to the total population and total number of houses, having regard to the general tendency everywhere to replace thatched huts by tiled houses.

There is a perceptible increase in ploughs and common carts, but this also should be subject to the same consideration. It may also be explained that they may have resulted in part from the general tendency of families to separate necessitating independent ploughs and carts for conveying manure to the field coupled with the fact that use of carts instead of pack bulls must have been facilitated by the opening of new roads.

Para 14.—It is encouraging to note that the tanks in this tract are generally well maintained. This perhaps refers to the larger tanks under the management of the Public Works Department. The prevailing opinion is that as much as should be had not been done for the tanks in the malnad in spite of large receipts from irrigation cess, and that though the lands are mainly dependent on rains, the supply in the water in the tanks is found of great use at critical junctures both for wet lands and gardens.

Para 18.—The average realisations of sales of land in this para are in teresting. But if the statistics of such sales had been given for separate decades since last settlement, it would have been possible to trace the rise in the value of lands.

Para 15.—It is very discouraging that in spite of greater opening up of the country by roads the population should have steadily decreased. The following statement will indicate the fall clearly :—

		Difference.
Population at the original settlement	... 25,047	
As per Census of 1901	... 21,883	—3,164
Do 1911	... 20,710	—1,173

Total decrease	... 4,337	

The insanitary condition of the tract is mainly answerable for this larger decrease. The reduction in the population must indicate in addition a still greater deterioration in the general health and physical strength of the people which will be reflected still more seriously in the supply of labour. The immigration of labour from below the ghats to eke out this deficiency cannot be regarded as a hopeful feature. The Deputy Superintendent remarks that the wages of the coolies from below the ghats have risen but he gives the same rates as were given by Mr. Dobbie at the time of the original settlement, i.e., 4 annas daily and also one seer of rice and condiments. But he perhaps alludes to rise of wages for local labour.

Para 20.—Prices have risen considerably, about 40 per cent in the case of rice and 100 per cent in the case of ragi. But the effect of this is discounted by the fact that there has been no extension of cultivation or increase in population or general prosperity. It may be worth while to examine the first mentioned point more fully. In the year 1906-07, the areas of occupied and unoccupied lands were 20,201 acres and 21,634 acres, respectively, as against 31,890 acres and 18,171 acres respectively at the time of the original settlement. At the last settlement it was expected that some portion of their lands would be relinquished by the wargadars as a result of the detailed survey and assessment of the wargs. This re-adjustment was completed by about 1881 and it is not clear why the area under cultivation should not have expanded under the improved conditions following the settlement and in response to increased prices, etc., as in other parts of the country.

Para 31.—The proposed settlement is calculated to bring an increase of 4 per cent over the collections of 1906 and this increase is fairly distributed over the various groups. The incidence of the revision assessment is Re. 0-6-0, Rs. 2-15-10, and Rs. 10-12-10 per acre of dry, wet and garden lands as against Re. 0-6-0, Rs. 2-13-10 and Rs. 11-5-1 at the original settlement. The proposed rates cannot be regarded as heavy. It is, however worth, while to note that the average incidence of land revenue per head of population will work out at Rs. 3-8-0 nearly.

Para 21.—The Deputy Superintendent reports that much valuable time was taken up with the work of fixing lost or displaced boundary marks. It must, however, be borne in mind that with sparse population and employment of much hired labour for ordinary cultivation it is hard to expect people to take as good care of the bandhs and stones as in more healthy and populous tracts. Still, proper and timely attention on the part of the taluk and the district authorities would have saved this loss of time. The Deputy Superintendent does not, however, state the particular localities where these defects were noticed. As regards

Land Survey, dated 4th October 1911.

the dilatoriness on the part of the taluk authorities to furnish the necessary statistics and statements (*vide* para 23), I agree with the Deputy Commissioner in thinking that it was due not so much to wilful negligence or incapacity as a want of comprehension of what was exactly required of them.

IV. Letter No. 128, dated 6th June 1911, from the Superintendent of Mysore Revenue Survey and Settlement, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments.

I have the honor to acknowledge the receipt of your letter No. R. 6171—L. S 26-10-4, dated 10th May 1911, forwarding for remarks copy of letter No. 11062, dated 28th April 1911, from the Revenue Commissioner in Mysore expressing his opinion on the proposals for the revision settlement of the late Ananthapur Taluk, Shimoga District. The Revenue Commissioner generally concurs in the proposals submitted and states that the proposed rates of assessment cannot be regarded as heavy.

2. The same point, touched upon by the Revenue Commissioner several times in connection with revision settlement, has been referred to in his letter now before Government, *viz.*, the profits of cultivation. The Settlement Officer will indeed be grateful for any authoritative information on this matter that may be supplied to him by the Revenue Department, and is sure to make use of the same in formulating his proposals. But so far as collection of these statistics by the officer himself is concerned, I beg to submit that under existing conditions he cannot undertake to give greater details than what is usually given. The question is undoubtedly an important one, but at the same time, it must be borne in mind that it is the most difficult of solution. To ascertain the profits of cultivation, it is necessary to ascertain the average gross produce and the cost of cultivation. I need not pause to remark what reliance can be placed on the figures at present furnished as the result of agricultural experiments. They are so divergent that the Revenue Commissioner himself was obliged to convene a meeting to concert measures for proper estimates being formed of the outturn of crops. The statistics of out-turn of crops at present available are not, in my opinion, safe data for drawing inferences, intended to help the formulation of proposals on such an important question as the revision of rates of assessment. Moreover, to determine the profits of cultivation it is necessary to know the cost of cultivation, which, as I have already pointed out in my letter No. 86, dated 25th January 1911, regarding the revision settlement of the Honnali Taluk, is an item that "differs not merely from soil to soil but from man to man, from crop to crop and from year to year." It is not profitable to generalise upon uncertain and inaccurate data especially in connection with revision settlements which directly affect the riyats individually. By keeping the increase of assessment for below the percentage of increase in prices, a liberal allowance is made for the increased cost of labour, stock and implements, as well as for the increased cost of living of the people and for promoting a higher standard of comfort among them. This is the course adopted in all revision settlements not only here but also in the Bombay and Madras Presidencies, and is sufficient to serve all practical purposes.

3. I do not think that the Revenue Commissioner intends that actual experiments to determine the average produce should be conducted by the Survey Department. If, however, he means it, I can only say that it is outside the scope of the Survey Department.

4. Regarding the increase in the agricultural resources in the tract under consideration, the Revenue Commissioner tries to explain it away by attributing it to several causes, such as partition of families and opening of new roads. Whatever might be the reasons that have brought about the increase, the fact remains all the same and is entitled to its share of consideration in judging of the progress of the tract.

5. In connection with the value of land, the Revenue Commissioner desires to have statistics of sales of land for separate decades since the original settlement. This would involve a great deal of unnecessary labour, as the primary object of examining such transactions is not to trace the history of the rise of prices of lands but to know generally what value is attached to lands in the locality and thereby infer the effect of the original settlement for revising the rates of assessment. The Settlement Officer need not in this respect be bound down by any hard and fast rule by being required to collect cases of sale for particular years, but may be trusted to give sufficient information for ascertaining the value of land properly.

6. Regarding the observation made by the Revenue Commissioner about the wages of labour at present, as compared with the wages at the original settlement, the Deputy Superintendent explains by saying that although the rate of money wages has remained the same, the price of rice and condiments, which form part of the daily wages, has considerably risen since the original settlement.

7. The Revenue Commissioner says that it is not clear why there has not been an expansion of cultivation in the tract under consideration under the improved conditions following the settlement and in response to increased prices, etc., as in other parts of the country. The reason is not far to seek; the decrease in population and the difficulty of

Proceedings of the Government of His Highness the Maharaja of Mysore,

securing labour account for this. Had not conditions improved under the settlement and other causes, there should have been a substantial decrease in the area under cultivation in proportion to the decrease in population, besides lands relinquished by wargdars soon after the settlement.

8. I am not prepared to agree with the Deputy Commissioner and the Revenue Commissioner in thinking that the dilatoriness on the part of the taluk authorities to furnish the required statistics and information is due to a want of comprehension of what is actually required of them. The statistics called for are such as can be readily collected from the village accounts. A list of the names of villages in the tract to be brought under revision, statistics of rainfall and prices, number of markets, statement of takavai advances granted for converting dry lands into garden, and an account of new roads opened since the original settlement are among the miscellaneous information obtained from the taluks. The most important of the statistics asked for is that pertaining to the revenue collections and remission from the year of settlement up to date, and details of this are called for under the three heads of dry, wet and garden for both occupied and unoccupied lands in pursuance of the instructions laid down by Government in their Order No. R. 7235-9—L. S. 10-07-14, dated 8th May 1908. For all years but the last, only the total figures for the tract are wanted, but for the last year, details have to be furnished villageवार. All these statistics are quite common to the taluk authorities, who deal with them as a matter of routine almost every day. Nothing surpassing their comprehension is required to be done in furnishing the statistics, and in order to facilitate the correct understanding of what is wanted, clear explanations are given in the requisitions, together with the detailed headings of forms in which the accounts are wanted. Failure or dilatoriness to supply even these simple statistics, of which only the statements of revenue collections involve some labour, has to be attributed not to any want of comprehension, but to a want of real earnestness to furnish them accurately and readily.

9. In conclusion, I have only to add that the revised rates have been most fully discussed between the Deputy Superintendent and myself before they were finally proposed. The Deputy Commissioner has expressed his full concurrence in the proposed rates and the Revenue Commissioner also thinks that they are not heavy. I, therefore, solicit the sanction of Government to the revision of rates as proposed.

NO. R. 1909-19—L. S. 26-10-6, DATED BANGALORE, 4TH OCTOBER 1911.

ORDER THEREON.—The proposals relate to the late Ananthapur Taluk which was abolished in 1875, its villages having been distributed among the adjacent Taluks of Nagar, Sagar, Shikarpur, Tirthahalli and Shimoga (Kumsi Sub-Taluk). The tract is more or less malnad in character, being covered with thick forests and evergreen kans. The rainfall, though somewhat moderate towards the north and the east, is on the whole heavy, ranging from 50 inches in the north and the east to 100 inches on the average in the south. The dry crops such as ragi, kurasani and horse gram being merely subsidiary to wet and garden crops except in the eastern portion, rice and areca form the staple crops in the tract. Out of a total cultivable area of 50,035 acres according to the revision survey, 21,325 acres are dry, 27,708 are wet and 1,002 are garden. Out of this area, 12,417 acres dry, 7,802 acres wet and 67 acres garden were unoccupied at the end of 1906-07. There has been an appreciable decrease in the occupied area as compared with what it was at the original settlement. This is chiefly due to the fact that the imposition of assessment on all arable land led to the relinquishment, soon after the introduction of the original settlement, of large areas held free of charge under the "warg" system, but brought to book by the settlement. The general agricultural condition of the tract is on the whole not worse than that of the adjacent parts of the Sagar or Sorab Taluk. It has always been thinly populated and dependent to a great extent on labour from the adjoining British districts. The decline in its population is by no means due to agricultural causes alone. The original rates which were framed with great caution have, on the whole, been found to be very suitable to the circumstances of the tract. The cultivation of areca is a very important industry in the tract and as a rule rice and supari lands are associated in the same holding. The beneficial results of the abolition of the halat are described in the report of the Deputy Superintendent of Survey. According to the principles laid down in carrying out the revision settlement of the Sagar Taluk, the revised

Land Survey, dated 4th October 1911.

rates on garden lands have been fixed so as not to exceed the assessment that was paid on them after the remissions sanctioned in 1896. With the abolition of halat this means a reduction of garden assessment by nearly 75 per cent.

2. The original soil classification has not been disturbed and only water classification has been revised wherever necessary. The villages included in the tract have been divided into four groups for purposes of assessment as at the original settlement.

3. The following statement shows the effect of the proposed rates of assessment in regard to occupied lands only :—

Group	Description of land	Original settlement figures for 1906-07		Proposed revision settlement		Percentage of increase (+) or decrease (—)
		Acres	Assessment Rs.	Acres	Assessment Rs.	
I	Dry	2,605	1,013	2,177	1,063	+5
	Wet	6,501	17,394	5,587	18,729	+3
	Garden	564	6,671	559	6,564	—2
	Total	8,750	25,078	8,623	26,356	+3
II	Dry	3,722	1,367	3,657	1,491	+9
	Wet	8,595	25,018	8,903	26,300	+4
	Garden	293	3,112	329	3,305	+5
	Total	12,960	29,527	12,889	30,929	+4

	Total	29,201	69,613	29,001	72,436	+4
		Average rate 2-6-2		Average rate 2-8-0		

4. The proposals are expected to yield a total assessment of Rs. 72,436 and involve an increase of Rs. 2,823 or 4 per cent over the collections of 1906-07 and may therefore be considered to be very moderate.

5. The average dry rate has been increased from Re. 0-6-0 to Re. 0-6-9 or by 8 per cent and the average wet rate from Rs. 2-13-10 to Rs. 2-15-10 or by 4 per cent. As regards the average garden rate, the special remissions sanctioned in 1896 in respect of gardens had the effect of reducing the average rate from Rs. 16-12-3 to Rs. 11-5-1. By the present revision, the rate is further reduced to Rs. 10-12-10. There has thus been a total reduction of the average garden rate by 35·3 per cent. The wet average rates compare very favourably with those of the adjacent villages in the Sagar and Shikarpur Taluks.

6. The proposed rates are concurred in by the Revenue Commissioner and the Deputy Commissioner, Shimoga District. Government are therefore pleased

Proceedings of the Government of His Highness the Maharaja of Mysore.

to sanction the revised rates proposed by the Deputy Superintendent of Survey and direct that they be introduced with a guarantee of thirty years with effect from the official year 1912-13. The rates should be announced during the next cold weather.

7. In para 11 of the Deputy Superintendent's report, it is suggested that the opening out of a road from Ananthapur to Bellandur and thence to Ambligola will open out the tract and connect it more efficiently with the rice markets of Shikarpur and Siralkoppa. The Deputy Commissioner, Shimoga District, is requested to have the feasibility of this considered by the District Board and the Department of Public Works.

8. The delay on the part of Amildars in furnishing the Survey Department with statistics and information called for, complained of by the Deputy Superintendent in para 23 of his report, will receive separate attention.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Superintendent, Revenue Survey.
The Revenue Commissioner in Mysore.
The Deputy Commissioner, Shimoga District.
The Deputy Commissioners of other Districts.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Letter No. 3251—2, dated the 30th August 1911, from the Revenue Commissioner in Mysore forwarding the statement of cattle mortality for the quarter ending 30th June 1911, with a copy of his review thereon.

Revenue Commissioner's Review.

Recorded.

2. The accompanying consolidated statement shows the extent of mortality in the State among the different kinds of cattle during the quarter.

3. There was an increase of nearly 2,000 in the total number of deaths as compared with the corresponding quarter of the previous year, being 21,284 as against 19,374. The increase in mortality is the more noticeable when compared with the figures for preceding quarter, there being an increase of more than 4,500 (the total mortality for the previous quarter was 16,769).

4. The total number of deaths due to sickness was 9,387 against 7,777 in the corresponding quarter of the previous year, showing an increase of 1,610. The mortality under this head for the previous quarter was only 7,152. The increase in mortality due to sickness during the quarter under review was due mainly to the prevalence of 'Chappe Roga' in the Tumkur and Hassan Districts, and 'Foot and mouth disease' in the Kudur District.

Proceedings of the Government of His Highness the Maharaja of Mysore,

Statement showing the losses in cattle of various kinds in the Mysore State for the quarter ending the 30th June 1911.

No. J. 1—LEGIS., DATED CAMP MYSORE, 6TH OCTOBER 1911.

ORDER.—With reference to Government Notification No. J. 1007—Legis. 15-11-1, dated the 19th September 1911, the Government of His Highness the Maharaja are pleased to direct that a meeting of the Members of the Assembly be held at the Public Offices Buildings, Mysore, on Sunday the 8th October 1911, at 8 A.M., for the purpose of electing two members to the Mysore Legislative Council from among the candidates whose names are given below:—

Eastern Division.

1. Mr. D. Venkataramaiya, B.A.
2. Mr. Magadi Karnik Krishna Murti Rao

Western Division.

1. Mr. S. R. Balakrishna Rao, B.A., LL.B.
2. Mr. B. Narasinga Rao.

2. The Deputy Commissioner, Mysore District, is requested to attend the meeting, count the votes of the members and submit the voting papers with a report to Government as laid down in Rule III (6) of the rules published with Notification No. J. 794—Legis., dated the 15th September 1909, as amended by Notification No. J. 444—Legis. 7-11-1, dated 2nd August 1911.

Judicial and Legislative (Legislation), dated 10th October 1911.*

READ—

Dasava Representative Assembly Subject No. 61 of 1910 in the matter of the game license granted on a two-rupee paper, which at present is restricted for use in the village in which the licensee resides, being made applicable to the whole taluk in which he resides.

No. J. 6—LEGIS, DATED CAMP MYSORE, 10TH OCTOBER 1911.

ORDER THEREON.—Government are pleased to direct that the license in question be made operative within the limits of the hobli in which the licensee resides. The following modifications will accordingly be made in Rule 10B added to the Game Rules of 1901, by Notification No. J. 498—Legis. 18-07-2, dated the 13th August 1908:—

In para 1, for the words "in the vicinity of the town or village where the licensee resides, as may be specified by the District Magistrate in the license,"

substitute "as lies within the limits of the hobli in which the licensee resides";

and in para 2, for the words "town or village where,"

substitute "Hobli within the limits of which."

As modified, the rule will read as follows:—

"Rule 10 B.—Notwithstanding anything contained in Rules 9 and 10, the District Magistrate may grant to an owner or occupier of land in any of the tracts specified in the margin, a license to pursue, shoot at

The whole of the Shimoga and Kador Districts; the Hassan Taluk (including Alur Sub-Taluk), and the Manjarabad and Belur Taluks of the Hassan District, and the Heggadevankote, Hunsur, Chamrajnagar and Gundlapet Taluks of the Mysore District.

and kill game on payment of a reduced fee of Rs. 2 which shall have operation over such portion of the District and State Forests and lands specially protected under Section 35 of the Mysore Forest Regulation, as lies within the limits of the hobli in which the licensee resides.

"If the hobli within the limits of which the licensee resides adjoins another district, the operation of such license may be extended, without payment of any additional fee, to any specified portion of such adjoining district, State Forest and land specially protected as aforesaid, situated therein, on countersignature by the District Magistrate of such district.

"It shall be competent to the District Magistrate granting a license under this rule, to withdraw or cancel the same at any time, for sufficient cause."

Judicial and Legislative (Registration), dated 4th October 1911.*

READ—

Subject No. 72 of the Proceedings of the Representative Assembly of 1910, regarding the valuation of certain agricultural lease deeds for purposes of assessing registration fees.

(2) Letter No. 2030, dated 6th June 1911, from the Officiating Inspector-General of Registration in Mysore, submitting his opinion on the representation made by the members of the Assembly.

No. J. 1111-19—REGIS. 29-10-3, DATED BANGALORE, 4TH OCTOBER 1911.

ORDER THEREON.—The value of lease-deeds for purposes of calculating registration fees is determined under the rules laid down in Government Notification No. 3736—J. 431, dated 16th September 1898.

2. In the case of certain agricultural lease-deeds such as those for *rara* rent of lands, etc., the rent is neither fixed in cash nor in definite quantity of grain. The value in such cases is determined on the value of the stamp affixed, or at Rs. 100 if the deed be unstamped, when the term of the lease exceeds a year. But a fixed fee of Rs. 5 is levied for registration, if the deed be unstamped and the term of the lease be only for a year or less. It is against this rate of fee that the members of the Assembly who have brought forward the subject, complain. It is represented that the levy of a uniform rate of rupees five in such cases is too high, regard being had to the value of the rent reserved in the generality of cases. They, therefore, pray that, in such cases, the value of the lease-deed may be taken at four or five times the assessment on the land for purposes of calculating the registration fees.

3. Government are pleased to accept the recommendation of the Officiating Inspector-General of Registration and direct that, where in agricultural leases for one year or less the rent is not fixed either in kind or in cash and the lease-deed is unstamped, the value of the lease, for purposes of registration, be taken as five times the assessment on the land the rent of which is secured by the instrument when the survey assessment on the land has been specified in the instrument.

4. A notification amending the table of fees accordingly will be issued separately.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Officiating Inspector-General of Registration in Mysore.

The District Registrar and Deputy Commissioner, Bangalore, for communication to the members that mooted the subject.

The other District Registrars and Deputy Commissioners of Districts.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter No. 48, dated the 16th September 1911, from the President of the District Board of Bangalore, submitting the statement of District Fund Works that remained incomplete on the 30th June 1911.

No. 3031-2—L. B. 102-11-2, DATED BANGALORE, 28TH OCTOBER 1911.

ORDER THEREON.—The number of works which remained incomplete on the 30th June 1911 is still large, though not as large as in the previous year, being 144 against 175. Of the former, 26 were those sanctioned in 1910-11, and the rest during previous years. On 91 of the old works there was no expenditure whatever during 1910-11, and ten works stated to have been sanctioned out of the special grant for works made in 1908 have not been shown in the list of works which were incomplete at the end of June 1909. The facts disclose that due attention is not given to the completion of works by the officers responsible therefor and to the correct preparation of the return. Their explanation for such remissness, called for in the Government orders passing the lists of works which were incomplete at the end of 1908-09 and 1909-10, have not yet been sent in spite of repeated reminders issued in the matter. The President is again requested to make effective arrangements for the completion of the works, the cost being met out of the provision of Rs. 3,500 made for incomplete works in the current year's District Fund Budget and out of the provision for new works by deferring their execution to the extent necessary. Sanction should be obtained to the commencement of works sanctioned more than two years ago and not commenced yet, in accordance with para 94 of the rules issued under the Local Boards Regulation.

2. The explanations of the officers responsible for the omission to take timely steps for the completion of works should be submitted together with explanation regarding certain discrepancies, called for in Government Order No. 4247-S—L. B. 122-10-5, dated 19th November 1910. In the case of some works supplemental estimates have been sanctioned. As this procedure is not correct, revised estimate should be called for and sanctioned.

3. The marginally noted work does not find a place in the list of works which were incomplete at the end of 1908-09. The omission requires explanation.

Constructing a cattle- pound at Military Grass Farm, sanctioned in February 1910:—

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Subject No. 161 brought forward at the Representative Assembly of 1908 and the reply of Government thereto, in the matter of exempting from payment of octroi duty on articles brought within the Municipal limits in small quantities for private use.

2. The following replies from the Deputy Commissioners of the several districts and the Presidents of the Municipalities, in regard to such exemption:—

1. Letter No. 109, dated 3rd April 1909, from the President, Mysore City Municipal Council.
2. Do 267, dated 29th April 1909, from the Deputy Commissioner, Shimoga District.
3. Do 129, dated 4th May 1909, from the President, Mysore City Municipal Council.
4. Do 841, dated 19th June 1909, from the Deputy Commissioner, Tumkur District.
5. Do 306, dated 22nd June 1909, from the Deputy Commissioner, Shimoga District.
6. Do 8, dated 2nd July 1909, from the Deputy Commissioner, Mysore District.
7. Do 19, dated 7th July 1909, from the Deputy Commissioner, Mysore District.
8. Do 31, dated 3rd August 1909, from the President of the Bangalore City Municipal Council.
9. Do 58, dated 17th September 1909, from the Deputy Commissioner, Bangalore District.
10. Do 56, dated 23rd September 1909, from the Deputy Commissioner, Shimoga District.
11. Do 110, dated 29th September 1909, from the Deputy Commissioner, Chitaldrug District.
12. Do 680, dated 15th October 1909, from the Deputy Commissioner, Kolar District.
13. Do 105, dated 9th September 1910, from the Deputy Commissioner, Kadur District.
14. Do 170—S., dated 11th November 1910, from the Deputy Commissioner, Hassan District.

No. 2511-20—ML. 281-08-20, DATED BANGALORE, 6TH OCTOBER 1911.

ORDER THEREON.—Government have already stated, in reply to the representation made at the Representative Assembly, that the Municipalities concerned should make arrangements for exempting from octroi dutiable articles brought into the town in small quantities for private use, as required by the Chief Commissioner's Circular No. 3362-73—ML. 161, dated 27th September 1879. The main object of the concession is not exemption from taxation but exemption from vexatious interference on the part of octroi officials. Government now direct that the said circular be adopted by all the Municipalities in the State with a definition of "small quantities" referred to therein in the case of the following articles and subject to the maximum limits noted against each up to which the article may be exempted from payment of the duty:—

Serial No.	Dutiable articles	Maximum quantity that may be exempted at any one time from payment of the duty
1	Cocoanuts, fresh	Six.
2	Do dry	Six.
3	Betel leaves	100 leaves.
4	Sugar	2½ seers.
5	Jaggory	5 seers.
6	Ghee	2½ seers.
7	Butter	5 seers.
8	Oil (other than kerosene oil)	2½ seers.
9	Tobacco	1 seer.
10	Cloth	2 cloths.

Local Fund and Sanitary (Municipal), dated 6th October 1911.

3. The Deputy Commissioners are requested to advise the Municipalities within their respective districts to take necessary action to give immediate effect to this Order.

G. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Deputy Commissioners of Districts and Presidents of the Municipalities in
the State.
The President, Bangalore City Municipal Council.
The President, Mysore City Municipal Council.

Exd.—c. v.

*Proceedings of the Government of His Highness the Maharaja of Mysore,
Local Fund and Sanitary (Medical), dated 16th October 1911.*

No. 2700-40—MED. 2-08-98, DATED BANGALORE, 16TH OCTOBER 1911.

ORDER.—Government direct that the marginally noted officers of the Prison^s Department be also included in Appendix A to the Government Order No. 631-80—Med. 2-08-95, dated the 22nd July 1911, prescribing the rules regulating the grant to Government servants and to indigent persons unconnected with the public service, of concessions designed to enable them, when bitten by a rabid animal, to proceed to the Pasteur Institute at Coonoor for treatment.

The Inspector-General of
Prisons in Mysore.
The Superintendent, Central
Jail, Bangalore.
The Superintendent, Mysore
Jail.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Officiating Inspector-General of Prisons in Mysore, with reference to his letter No. 972, dated the 16th September 1911.

Other Heads of Departments.

The Deputy Commissioners of Districts.

The Presidents of all the District and Municipal Boards in the State, including the Presidents of the Mysore and Bangalore City Municipal Councils, and of the Kolar Gold Fields, Sanitary Board.

Encl.—C. V.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Letter No. 580, dated the 6th June 1911, from the Director of the Pasteur Institute of Southern India, Coonoor, to the President of the Committee, Madras, regarding a scheme for collecting information as to the proportion of persons who develop hydrophobia after being bitten by rabid animals:—

"I have the honor to state that it has become a matter of considerable importance to ascertain with some measure of exactitude what proportion of the people bitten by any one rabid animal actually develop hydrophobia, as well as the proportion between those bitten and those who come for treatment. The statistics which have been published from time to time by European authors are so discrepant that they are of little value; moreover it by no means follows that the incidence of the disease is the same in temperate Europe amongst a clothed populace as in tropical India where the majority of the people for all practical purposes may be considered to be naked.

2. Since this institute has been opened in every case in which a patient has arrived for treatment and has stated that the animal which bit him bit several other people also I have sent out an enquiry form to the local authority, but the results have been by no means satisfactory as it has been nobody's business in particular to make the necessary enquiries in the first place and to keep the bitten people under observation for the required period in the second place.

3. It appears to me that, if an organised effort were to be made under the orders of Government it would be possible to get some quite reliable and highly valuable statistics in the course of, say, three years. If 1,000 instances of multiple bites could be analysed accurately, I think it probable that we should then be in possession of sufficient information to enable deductions to be made.

4. I would propose, therefore, the following scheme for the consideration of Government. Orders might be issued to all District Medical Officers and Health Officers of municipalities that on receipt of a letter from the Director of this Institute containing particulars of an instance in which a rabid animal has bitten several persons, one or some of whom have come to Coonoor for treatment whereas the rest have not, careful enquiries should be made on the spot by some qualified medical officer, such as the officer in charge of the nearest Local Fund Dispensary, the sanitary assistant to the District Medical and Sanitary Officer or the District Medical and Sanitary Officer himself, if he happens to be in that neighbourhood.

The enquiries should result in sufficient information to enable all the persons bitten, both the treated and the not treated, to be traced and kept under observation for one year from the date of the bite. They should include the points enumerated in the accompanying specimen form, printed copies of which would be issued with each letter of enquiry. The Director's letter of enquiry with the forms would be addressed to the District Medical and Sanitary Officer or Health Officer of the district or municipality concerned, and this officer would arrange with his subordinates for the enquiries and observation required.

Having obtained all the information possible, the medical officer should arrange to see each one of the bitten persons once a month till the year is up and to have reports of any serious illness sent to him so that he can go immediately to see the sufferer in order that he may be able to form an opinion of the true cause of death, if death should ensue.

5. This seems at first to entail much extra labour, but in reality it is not so. Supposing that 300 cases of multiple bites were to be investigated in one year, they would be scattered all over the Presidency and it is not very likely that any one medical officer would have more than two batches of bitten persons to supervise, and the majority would have none.

6. If the Governments of Mysore, Travancore and Cochin would also fall in with this scheme, the area of observation would be much enlarged and a sufficiency of figures to work upon would be obtained more quickly."

Local Fund and Sanitary (Medical), dated 25th October 1911.

ENCLOSURE.

PASTEUR INSTITUTE, COONOR.

Detailed Enquiry Form No.

Village or town.

District.

- | | |
|--|----------------------|
| 1. { Name
Age
2. Address.
3. Date of bite.
4. Number of other persons bitten by same animal.
5. What kind of animal?
6. Did patient go to Coonoor for treatment?
7. Dates of beginning and end of treatment at Coonoor.
8. If patient did not go to Coonoor was any native treatment employed, and, if so, of what nature?
9. Number of teeth marks, their depth and position. Description of wounds.
10. Whether bitten on naked skin or through clothing with description of clothing penetrated.
11. If not bitten, was patient wounded by the claws of the animal and where?
12. If not bitten, or scratched, was patient licked on open wounds or abrasions or on healthy skin?
13. Were bites cauterised, if so, with what and how long after?
14. Dates when patient was seen by medical officer with his initials.
15. Date of final observation one year after the bite.
16. Note of any illnesses occurring during the period of observation.
17. If patient died from other causes, state date of death and its cause.
18. If death occurred from hydrophobia, give date of first symptoms, date of death and a brief summary of the symptoms.
19. Was patient alive and well a year after the bite? | Father's name
Sex |
|--|----------------------|

If transferred, the medical officer under whose observation this patient has been should sign his name below, giving the dates between which he has had the patient under observation. The paper will be handed by him to his successor to continue the observation till the year is up.

Forwarded to the Director, Pasteur Institute, Coonoor.

Note 1.—Particular care should be taken to describe accurately the injuries inflicted by the biting animal (*vide* heading 9).

Note 2.—The number filled in at the head of the form is for the convenience of this office and should not be altered. Details concerning one patient only should be entered on each form. If local enquiry shows that extra forms are required, they may be obtained by applying directly to the Director, Pasteur Institute, Coonoor.

No. 2881-921—MED. 33-11-28, DATED BANGALORE, 25TH OCTOBER 1911.

ORDER.—All officers of the Medical and Sanitary Departments and Deputy Commissioners of Districts are requested to co-operate with the authorities of the Pasteur Institute of Southern India in the conduct of the enquiry suggested by the Director of the Pasteur Institute in his letter read above.

2. The Senior Surgeon and Sanitary Commissioner should issue any further instructions he may think necessary in the matter.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

The report on the working of the Hospitals and Dispensaries in Mysore for the calendar year 1910, received with the Senior Surgeon's letter No. 412—Stt., dated the 19th May 1911.

No. 2931-40—MED. 240-10-6, DATED BANGALORE, 26TH OCTOBER 1911.

ORDER THEREON.—Recorded.

2. With a new Local Fund Dispensary opened at Chelur in the Bagepalli Taluk on the 11th September 1910, the total number of Medical Institutions in the State open on the 31st December 1910 was 149 against 148 at the end of the year 1909. The total number of patients treated in the State Public Institutions (except the Special Hospitals) and the Local Fund and Private Aided Dispensaries was 1,223,433 against 1,182,448 in 1909. Of this number, 11,513 were in-door and 1,211,920 were out-door patients against 11,153 and 1,171,295 respectively in the previous year. Again, of the total number of patients treated (*viz.*, 1,223,433), 553,500 were men, 256,552 women and 413,381 children against 516,357, 248,080 and 388,011, respectively, in the previous year. Of the 11,513 in-door patients treated, 7,839 were cured, 1,660 relieved, 904 discharged otherwise, 1,002 died, and 108 remained under treatment at the close of the year.

3. The number of cases treated for small-pox decreased from 384 in 1909 to 204 during the year under review. The number of cases treated for cholera and malarial fevers showed an increase, being 636 and 220,002 against 598 and 190,743 respectively in 1909.

4. Surgical operations were performed on 35,676 patients including the 73 that remained at the end of the previous year. Of these 24,268 were cured, 11,213 were relieved, 62 discharged otherwise, 88 died and 45 remained under treatment at the close of the year. Of the 36,086 operations performed altogether, 1,987 were major operations. The number of major operations performed in the Victoria Hospital, Bangalore, was 828 against 770 in the previous year.

5. The total expenditure during the year on account of the State Public, Local Fund and Private Aided Hospitals and Dispensaries in the State amounted to Rs. 4,05,663 against Rs. 4,14,793 in 1909.

6. The special pay wards of the Victoria Hospital tentatively opened during the previous year were open throughout the year under review. 35* gentlemen, 16† ladies and 10‡ children were admitted into the special wards during the year. The Hospital charges realized from them during the year amounted to Rs. 1,689 against Rs. 675 during the six months of the previous year.

* 12 Europeans.
23 Indians

† 8 Europeans.
8 Indians.

‡ 5 Europeans.
5 Indians

7. The total number of patients treated in the State non-Public Hospitals and Dispensaries was 57,540 against 67,653 and the number of operations performed in them was 2,442 against 2,606 in 1909.

8. The number of midwives who were at work was 107 against 106 in the previous year. They attended to 6,076 cases against 6,504 in 1909.

9. The number of Hindu Vaidyasalas and Unani Dispensaries at the close of the year was 34 against 30 at the end of December 1909. The total number of patients treated in them is shown to be 259,944 against 235,566 in the previous year. Of the total number treated, 238,820 are returned as cured, 13,555 as relieved or discharged otherwise, 240 as dead and 7,329 as remaining under treatment at the close of the year. These figures require verification. The institutions seem to be growing more and more popular.

Local Fund and Sanitary (Medical), dated 26th October 1911.

10. Forms C, D and E of the statements relating to the report on the working of Hospitals and Dispensaries having been revised by the Government of India, the Senior Surgeon was authorised to adopt the revised forms for purposes of the report of the Mysore State.

strength of Hospital Assistants—two for the Victoria Hospital, Bangalore, one for the Imperial Service Transport Corps and one for each of the Local Fund Dispensaries at Annthapur and in the Weavers Lanes, Mysore City.

3. Letter No G 612, dated the 27th June 1910, from the Senior Surgeon, submitting a statement showing the present strength of Hospital Assistants and their distribution among the several Medical institutions in the State, as also the number actually required to be allotted to each institution, and requesting sanction to a reserve strength of 20 per cent of the total number of Hospital Assistants being maintained in view of the prevalence of epidemics and frequent calls on the Medical Department for help in the work of the Public Health Department

4. Letter No 1787—B & R 524, dated the 11th February 1911, from the Comptroller, forwarding duly verified, a proposition statement received from the Senior Surgeon for increasing the number of Hospital Assistants by two on account of (1) the newly sanctioned Local Fund Dispensary at Chelur and (2) the Public Works Dispensary at Sivasamudram in accordance with Government Order No 2159-60—Med 32-09-2, dated 1st September 1909

No. 3078-9—MED. 236-09-2, DATED BANGALORE, 30TH OCTOBER 1911.

ORDER THEREON.—On a careful analysis of the statement received with the Senior Surgeon's letter dated the 27th June 1910, read above, and considering also the requirements not taken count of by the Senior Surgeon, on the one hand for each of the Female Dispensaries at Chikballapur and Sagai, the latter has not yet been opened and one additional Hospital Assistant for the Palace Dispensary, Mysore, Government are pleased to direct that the number of Hospital Assistants of all grades be fixed at 183. Of this number, 172 shall constitute the strength of Hospital Assistants for the regular charges sanctioned, and the remaining eleven shall constitute a reserve staff at the rate of one Hospital Assistant for each district and one extra for each of the districts of Kadur, Shimoga and Mysore

2. The extra charge on account of the additional Hospital Assistants now sanctioned should, as far as possible, be met by a reappropriation of the grants in the Medical Budget.

READ—

Correspondence ending with letter No. 4429, dated the 30th March 1911, from the Sanitary Commissioner, on the utility of the system of rat destruction by official agency.

No. 2555-95—SAN. 26-10-17, DATED BANGALORE, 11TH OCTOBER 1911.

ORDER THEREON.—Government observe that the system of rat destruction by official agency, which has been in force for some years past, has not had much beneficial result. The experiment which has been tried at a heavy cost has shown that such measures can only have the effect of thinning the rat population here and there but can rid no area of the pest completely, and that even this effect is totally nullified by the rapid rate at which rats breed. Government accordingly direct that the system of paying rewards for the destruction of rats be discontinued.

2. Though the measures adopted by official agency for the destruction of rats have not secured the end in view and the payment of rewards has consequently been ordered to be discontinued, the importance of rat destruction as a plague preventive measure should on no account be taken as undervalued and every endeavour should be made by individual householders to keep their houses completely free from rats and by doing so, render them practically free from plague. A memorandum inviting the attention of the public to the importance of the measure of rat destruction in their houses, forwarded by the Sanitary Commissioner, is slightly revised and approved, and he is requested to have the same published in three successive issues of the *Mysore Gazette*.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rec. Depts.

To—The Sanitary Commissioner in Mysore.

The Comptroller, Mysore Government.

The Deputy Commissioners of Districts and Presidents of City Municipal Councils of Bangalore and Mysore.

The Heads of Departments, with copy of memo.

MEMORANDUM.

Official efforts directed towards extirpating the rats in towns by rewarding rat-catchers having proved unavailing, the Government of His Highness the Maharaja of Mysore are pleased to direct that rewards for rat-killing shall cease forthwith. In promulgating this order, Government desire it to be clearly understood that they fully recognize the connection between the existence of rats and the prevalence of plague. But as the payment of rewards to rat-catchers has not been found to rid any town or locality of even a small proportion of the rats and as this state of affairs can clearly have no appreciable influence on plague, it is considered a mere waste of energy and public funds to continue the practice. At the same time the fact remains that houses which are kept free from rats are also for the most part free from plague. No official effort, however, can rid individual residences of rats. This can only be done by the efforts of the householders themselves, and if the official procedure has had no other effect, it must at least have left every householder fully instructed as to the various means of ridding a house of rats. Householders are accordingly earnestly enjoined to put forth all their

Local Fund and Sanitary (Sanitary), dated 11th October 1911.

energies and intelligence in the endeavour to rid their premises of rats, and they are assured that success in this direction will mean safety to their families from plague. While thus withdrawing sanction for the expenditure of public funds on rat destruction, it is not the intention of Government to interfere with individual or combined effort on the part of the householders of any town to rid their boundaries of the rat tribe in any way that may suggest itself to them.

2. In regard to public buildings, all Heads of Departments are strictly enjoined to spare no effort in keeping their offices free from rats. They should themselves frequently inspect their offices. It should be the duty of the manager of every office to inspect every room and every corner of it at least once a week. He should see that rubbish, old papers, etc., are not allowed to accumulate, that a clear space of at least 8 inches is allowed between boxes and almirahs and walls, and that papers and other materials are on no account placed on the top of the almirahs or allowed to collect beneath them. All almirahs should be fitted with oblique tops so that rubbish cannot lie on them.

3. All floors should be rat-proof, that is, they should either be laid with tiles or slabs or brick on edge on a foundation of concrete or made of concrete skinned over with $\frac{1}{4}$ inch cement. Great care should be exercised in laying slabs of any kind to see that they are solidly bedded, that is, that no rat runs are left between adjoining slabs. They should never be laid on sand or mere earth, but always on concrete.

4. If there is one element in house management more than another, which counts for rat expulsion, it is "tidiness," and this accordingly is enjoined on all. "Tidiness" does not mean decorations or tinsel with which it is often confounded; it means "a place for everything and everything in its own place."

Proceedings of the Government of His Highness the Maharaja of Mysore.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Letter No. 7907-8—614, dated the 15th March 1911, from the Inspector-General of Education in Mysore, submitting the Village School Fund Budget for 1911-12 together with an explanatory memorandum.

MEMORANDUM.

RECEIPTS.

The amount of receipts estimated for 1911-12 is the same as for the current year. If the lump-sum provision of Rs. 5,000 for new Village Schools is sanctioned by Government, the amount of contribution from State Revenues as well as the total receipts will have to be raised by Rs. 5,000.

EXPENDITURE.

The expenditure estimated for the year 1911-12 is less than that sanctioned for the current year by Rs. 404. The variations occurring under the several heads are explained below:—

I. Instruction, General.

The decrease under this head is Rs. 44 made up of the following items:—

(a) Out of the lump sum provision of Rs. 7,487 for new schools, additional hands, etc., Rs. 2,487 has been distributed as per details sanctioned in Government Order No. 8525-6—Edn. 254-09-2, dated 29th March 1910, and of the remaining Rs. 5,000 the opening of 27 new schools at an annual cost of Rs. 4,998 has been sanctioned by Government Order No. 7003-4—Edn. 180-10-3 of 22nd February 1911.

(b) The unutilized amount of Rs. 3-8-0 a month in the rent of the Melkote Anglo-Vernacular School has been ordered to be omitted in the budget by Government Order No. 7186-7—Edn. 263-10-2 of 3rd March 1911.

Hence the decrease under (a) 2 and (b) 42 amounts to Rs. 44.

II. Grants-in-aid.

As the term of the Magic Lantern Exhibitor's appointment will be over on the 30th of June next as per Government Order No. 10329-30—Edn. 131-07-4, dated 15th April 1908, the provision for his pay, viz., Rs. 480, is omitted pending sanction to the renewal of the appointment. Hence the decrease of Rs. 480.

Local Examinations.

The increase of Rs. 120 under this head is due to the increment of the Manager at Rs. 10 a month.

The other heads remain unaltered.

Note.—The Provision for Village School buildings is raised from Rs. 5,000 to Rs. 50,000 under head IV general, as sanctioned in para 4 of Government Order No. 492-3—Edn. 314-09-2, of 18th July 1910 sanctioning the Village School Fund Budget of the current year

Summary.

The estimates thus provide for receipts amounting to Rs. 3,23,222 and expenditure amounting to Rs. 3,65,659, excluding the additional grants already recommended to Government in connection with the ensuing years' budget. The excess of expenditure over receipts may as usual be met from the cash and funded balances at the credit of the Village School Fund.

No. 2970-1—EDN. 316-10-2, DATED BANGALORE, 26TH OCTOBER 1911.

ORDER THEREON.—The Inspector-General estimates the receipts and expenditure of the Village School Fund for 1911-12 as shown below:—

	Sanctioned estimates for 1910-11	Proposed estimates for 1911-12	Difference
	Rs.	Rs.	Rs.
Receipts ...	3,23,222	3,23,222	Nil
Expenditure ...	3,66,063	3,65,659	—414

2. A sum of Rs. 5,000 has been included in the Education State Fund Budget for 1911-12 on account of contribution to the Village School Fund for opening new Village Elementary Schools in 1911-12. The receipts proposed by the Inspector-General will therefore be raised by Rs. 5,000. The total estimated receipts for 1911-12 will accordingly be Rs. 3,28,222.

Proceedings of the Government of His Highness the Maharaja of Mysore,

3. The expenditure estimated by the Inspector-General, *viz.*, Rs. 3,65,659, provides for all the ordinary and other sanctioned charges. For Village School buildings the provision sanctioned in 1910-11, *viz.*, Rs. 50,000, has been repeated against the normal grant of Rs. 5,000. Considering the urgent necessity for Village School buildings all over the State, this sum of Rs. 50,000 will be allowed to stand. The following charges sanctioned since the receipt of the budget amounting to Rs. 10,732 will be added to the expenditure estimated by the Inspector-General making a total of Rs. 3,76,391.

- | | |
|-----|--|
| Rs. | |
| (1) | 5,000 for opening new Village Elementary Schools, |
| (2) | 5,000 for furniture for certain Local Examination centres (<i>vide</i> , Government Order No. 696-7—Exum. 8-10-5, dated the 24th July 1911, |

| (4) | 240 being the house rent sanctioned for the Anglo-Vernacular School, Sarjapur (<i>vide</i> , Government Order No. 8533-4—Edn. 246-10, dated the 17th April 1911 and |
| (5) | 12 being the local allowance sanctioned to the peon of the Anglo-Vernacular School, Marikanave (<i>vide</i> Government Order No. 10753-4—Edn. 156-10-2, dated 29th June 1911. |

10,732

4. With these remarks the Village School Fund Budget Estimates for 1911-12 are passed providing for an income of Rs. 3,28,222 and an expenditure of Rs. 3,76,391, the excess of expenditure over the receipts being met from cash and the funded balances at the credit of the fund.

5. The details of the budget are given in the accompanying statement, an abstract whereof is given below:—

Receipts—	Items	Sanctioned estimates for 1910-11 Rs.	Sanctioned estimates for 1911-12 Rs.

Proceedings of the Government of His Highness the Maharaja of Mysore,

CAMP No. G. 45—G. M. 80-11-97, DATED 12TH OCTOBER 1911.

ORDER.—His Highness the Maharaja has been pleased to direct that in connection with the Imperial Coronation Durbar of 1911, the undermentioned Sirdars, Officers, ladies and gentlemen should be invited to Delhi as State-Guests.

Sirdars—

1. Mr. M. Kantaraj Urs.
2. Col. J. Desaraj Urs.
3. Mr. Lakshmikantaraj Urs.
4. Mr. M. Gopalraj Urs.
5. Mr. Gopalkrishne Urs.
6. The Rana Saheb.
7. Mr. Dalvai Devaraj Urs.
8. Mr. M. N. Balaraj Urs.
9. Mr. T. Basavaraj Urs.

Government Officers—

10. Dewan.
11. Chief Judge.
12. First Councillor.
13. Second Councillor.
14. General and Revenue Secretary.
15. Revenue Commissioner.
16. Inspector-General of Police.
17. Survey Superintendent.
18. Comptroller to Government.
19. Chief Engineer.
20. Conservator of Forests.
21. Excise Commissioner.
22. Senior Surgeon.
23. Inspector-General of Education.
24. State Geologist.
25. Chief Commandant.
26. Private Secretary to His Highness the Maharaja.
27. Military Secretary to His Highness the Maharaja.
28. Huzur Secretary to His Highness the Maharaja.
29. Assistant Secretary to His Highness the Maharaja.
30. Private Secretary to the Dewan.
31. Under Secretary with the Dewan.
32. Medical Officer with Her Highness.
33. Medical Officer with the Dewan.

Guests—

34. Mr. V. P. Madhava Rao.
35. Mr. C. Sreenivasiengar.
36. Mr. A. Rangaswami Iyengar.
37. Mr. Dharamsey M. Goculdas and three Sons.
38. Mr. Narottam M. Goculdas and Son.
39. Mr. N. V. Mandlik.
40. Mr. P. A. Larmour.

General (Miscellaneous), dated 12th October 1911.

Guests—

41. Mr. A. Chamappaji Urs.
42. Mr. A. V. Subramanyaraj Urs.
43. Mr. H. Nanjundaraj Urs.
44. Mr. H. Lingaraj Urs.
45. Mr. H. C. Lingaraj Urs.
46. Mr. B. Puttayyaji Urs.
47. Mr. H. Chikke Urs.
48. Dr. and Mrs. Bullen.
49. Mr. and Mrs. Pilkington.
50. Mr. and Mrs. Scotskirving.
51. The Zamindar of Sivagiri.
52. Mr. R. N. Iyer of Maymyo.
53. Mr. D. Venkataramayya.
54. Mr. B. Narasinga Rao.
55. Mr. Syed Amir Hassan.
56. Mrs. Ismay.
57. Mrs. Sparkes.
58. Mrs. Smeeth.
59. Mrs. Campbell.
60. Miss Campbell.

2. The quickest and convenient route to Delhi is *via* Guntakal and Bombay by the B. B. and C. I. Railway broad-gauge route.

3. The Comptroller to the Government of His Highness the Maharaja of Mysore is requested to disburse on application to the Sirdars, Officers and Guests, invited to Delhi, a lump sum towards travelling and incidental expenses on the scale noted below :—

	Rs.	a.	p.
One 1st class return fare for the Sirdar, Officer or Guest	218	13	0
One third class fare to Delhi and back for every servant allowed	37	14	0
Lump sum towards incidental expenses such as boarding, conveyance, luggage charges, etc., during the journey to and back from Delhi	100	0	0

4. The number of servants, whether Government or private, is limited to three in the case of retired Dewans, Principal Sirdars and Councillors in office, and two in the case of all others.

Proceedings of the Government of His Highness the Maharaja of Mysore,

**BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA
OF MYSORE.**

APPEAL No. 3 OF 1895.

Appellant	Vs.	Respondent
1. Kalasiah, son of Honniah		Kalasiah, son Maraviah.
2. Maraviah		

Subject.

Right to perform puja in the Sri Tripura Sundari Ammanavaru temple at Mugur in the T.-Narsipur Taluk for three months in a year, from 1st February to 30th April.

Facts of the case.

The relationship between the parties is shown in the genealogical tree appended to the decision.

Plaintiff's case is that his great-grandfather Deviah had the right of performing puja for three months in this temple, that the three younger sons of the latter relinquished their *hak* in favour of their elder brother and plaintiff's grandfather Kalasiah, that as Kalasiah and his eldest son and plaintiff's uncle Deviah successively performed puja, the plaintiff is entitled to succeed to it.

The 1st defendant's case is that there was no relinquishment by his father and even if there was a deed to that effect it was not intended to be, and was actually not acted upon, that the right of the sharers had more than once been recognized by Government and that the 1st defendant was registered as pujari in 1876 and has been since then performing puja for three-fourths of a month.

Second defendant's case is that plaintiff's great-grandfather Deviah got 1½ months' turn and his brother and second defendant's great-grandfather got 1½ months' turn, that the latter's descendants including 1st defendant's father performed puja for 1½ months and that 2nd defendant who was registered as pujari in 1889 has been performing puja for 1½ months.

Plaintiff says that his great-grandfather Deviah had no brothers at all.

The Amildar was of opinion that the alleged deed of relinquishment was not satisfactorily proved and that as the rights of hissedars had been more than once recognized by Government, it was clear that the said deed was not acted upon. He decided that plaintiff was entitled to perform puja for only three-fourths of a month. The plaintiff appealed to the Deputy Commissioner, who held that the defendants had been more than once directed on the miscellaneous side to file a regular suit, that with the help of the temple parpathegar, they were performing puja and had driven the plaintiff himself to file such a suit, that they had not established their title and that the splitting up of puja into turns was attended with much inconvenience and trouble. He modified the Amildar's decision and decreed plaintiff's claim in full.

On appeal to Government by the defendants, the case was once remanded for further enquiry and submission of previous records. In the meantime the 1st defendant compromised the case. The records called for with the records of further enquiry having been received, the 2nd defendant and his advocate were heard on the 16th August 1911, the plaintiff-respondent was absent though personally served with a notice more than once.

Decision.

The plaintiff's claim for the whole period of three months is based on the allegation of a special arrangement that, of the four brothers entitled to this office, three had relinquished their rights in favour of the other from whom plaintiff is descended. This allegation has not been established and so he must fail. The mere fact that the defendants had been ordered to establish their rights by regular suit cannot help the plaintiff and absolve him from the obligation to prove his case.

Muzrai, dated 24th October 1911.

The 2nd defendant, who is the appellant before Government, claims only one-half of this period. His claim has been established both by the documents produced and by the oral testimony of witnesses. Though, according to him, the plaintiff is entitled to only one-fourth of the period, the 1st defendant on whose behalf the remaining one-fourth was claimed has withdrawn his appeal. There is therefore no reason to deny the plaintiff the enjoyment of this fourth also.

The Deputy Commissioner's order will therefore be modified so as to divide this right of performing puja in the temple for the period of the three months in dispute between the appellant and the respondent in equal shares.

MEMO No. 885—MUZ. 64-95, DATED BANGALORE, 24TH OCTOBER 1911.

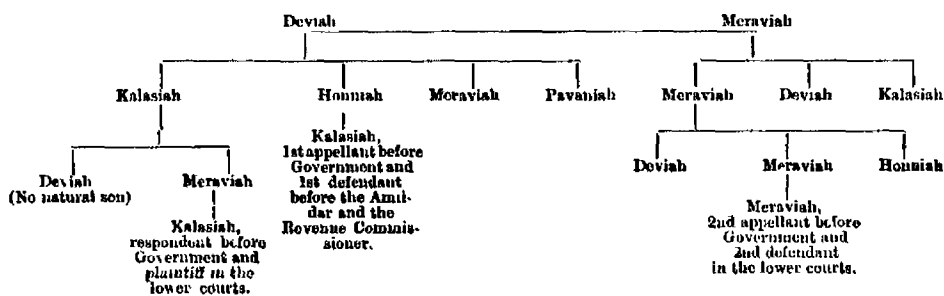

Copy to the Deputy Commissioner, Mysore District, returning the entire vernacular records received with correspondence ending with his letter No. 322, dated 16th January 1911.

By Order,

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

There are four Sannaddar Archaks of the temple in question, each family doing puja for three months in a year :—

1. Tripurantiah, 2. Devaiya, 3. Honniah and 4. Pavaniah.

Exd. —c. v.

*Proceedings of the Government of His Highness the Maharaja of Mysore,
Muzrai, dated 28th October 1911.*

READ—

Correspondence ending with letter No. 684—97, dated 23rd June 1909, from the Deputy Commissioner, Shimoga District, reporting upon the inadequacy of the budget provision for the supply of sandalwood to the Muzrai institutions in the Shimoga District.

2. Letter No. 88, dated 23rd August 1909, from the Deputy Commissioner, Mysore District, regarding the supply of sandalwood to the several Muzrai institutions in the district.

3. Srimukhas from the Swamigalavaru of the Sri Raghavendraswami and Sri Vyasarayaswami Matts requesting that the full quantity of sandalwood specified in the title-deed may be granted to their Matts.

No. 929-40—MUZ. 157-06, DATED BANGALORE, 28TH OCTOBER 1911.

ORDER THEREON.—The Inam Settlement of 1880 confirmed to the Muzrai institutions specified in list A the grant in kind of sandalwood which they were enjoying under the authority of sannads granted to them from time to time specifying the quality and quantity and in some cases the value of the wood to be given. In addition to these, certain other Muzrai institutions, specified in list B, which possessed no such sannads but which were being supplied with sandalwood from the funds at their credit, appear also to have been included by the Comptroller in the list of institutions entitled to the grant, though no authority is traceable for such inclusion. In order to meet these demands, a provision of Rs. 1,430 is being made in the Muzrai Budget every year since 1892, the said amount being calculated on the prevailing price of sandalwood at the time of the Settlement. This allotment is being distributed among all the institutions according to their established rights or their requirements. The price of sandalwood having, however, risen considerably since 1892 it is found that the provision is inadequate for supplying the specified quantity of sandalwood to all the institutions which actually possess sannads for the grant. This has given rise to the Sri Raghavendraswami Matt and the Udipi temple complaining that the full quantity of sandal as per sannads has not been supplied to them for several years.

2. The Government observe that the present arrangement is not quite satisfactory, as it has the effect of placing on a par institutions with established claims for the free grant of sandalwood with others which are not so entitled. To the latter class belong the institutions specified in list B, and the orders passed in connection with them at various times show that the cost of sandalwood required by them was intended to be met from their cash grants or from their savings. The questions that have come up before Government in the letters read above have shown the necessity of remedying the defects in the existing arrangement and adopting a plan which is simple to work and at the same time equitable to the institutions concerned. Accordingly after careful consideration, the Government are pleased to direct that the full quantity of the wood confirmed at the Inam Settlement be supplied, *in kind*, only to those institutions which are entitled to it under sannads, *viz.*, the institutions specified in list A.

3. The institutions mentioned in list B, which have no sannads and have not established any rights to free grant, should be directed to purchase the sandalwood they require from their funds and no budget allotment is necessary to meet this charge in their case.

4. The sandalwood required for the institutions in list A will be purchased by the Muzrai Department from the Forest Department at rates to be fixed by Government for five years at a time, due provision for the cost of such wood being made in the Muzrai Budget as heretofore.

5. The arrears of sandalwood due to the Udapi temple and Nanjangud Matt should be delivered early and adjusted in accordance with the foregoing instructions.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ AGAIN—

Government Proceedings No. G. 4397-9—G. M. 237-08-1 dated the 29th January 1909 passing orders on the proposals of the Retrenchment Committee for reduction of the cost of the Public Works Department, and directing, among other things, that the normal annual Provincial grant for Public Works be fixed for the time being at Rs. 25 lakhs and that the posts of Superintending Engineers be abolished.

2. Government Proceedings No. (P. W.) 446-91—3861-3906 dated the 29th April 1910 sanctioning the formation of a "Northern Circle" of Superintendence as a tentative measure for one year in the place of the Eastern and Western Circles that were abolished.

READ ALSO—

Note dated the 15th January 1911 from the Chief Engineer and Secretary to Government, Public Works Department, soliciting sanction to the retention of the "Northern Circle" as a permanent organisation.

2. Note dated the 19th May 1911 from the Chief Engineer and Secretary to Government, Public Works Department, recommending the formation of a "Southern Circle" of Superintendence.

No. 984-1020—9183-9219. DATED BANGALORE, 12th OCTOBER 1913.

ORDER THEREON.—On a further perusal of the entire correspondence bearing on the subject, the Government of His Highness the Maharaja of Mysore are pleased to accept the opinion of the Chief Engineer, that it is impossible to exercise effective control over works and expenditure according to the Public Works Department Code in the absence of two Public Works Circles of Superintendence which were in existence before he took charge.

2. The order dated the 29th January 1909 to abolish the posts of Superintending Engineers was based on the assumption that it might be possible to reduce the Public Works grant (Provincial) from Rs. 30.31 lakhs, the average of the past ten years, to Rs. 25 lakhs. The actual grant for the past two years, *viz.*, 1909-10 and 1910-11, has been Rs. 28,87,091 and Rs. 27,53,755, respectively, and that for the current year on account of increase of irrigation expenditure is Rs. 30 lakhs.

3. The limit of Rs. 25 lakhs, referred to above, was suggested sixteen years ago, at a time when the State revenues were considerably less than what they are at present. There is no reason why, with increasing revenue, Government should impose limits on useful Public Works expenditure, particularly on works of a productive or protective character. A large expenditure on Railway construction is inevitable in the near future and additional expenditure more or less every year on extraordinary Public Works. There is, therefore, no likelihood of the expenditure in the next decennium being less than the average expenditure.

4. Again, the average expenditure on works under all funds during the last ten years amounted to Rs. 33 lakhs, and the proportionate cost of establishment to 23.7 per cent. As regards future expenditure, it may be safely assumed that the total works expenditure will exceed rather than fall short of Rs. 33 lakhs. The cost of establishment, as it stands at present, including the two Circles, will be Rs. 7 lakhs, and this gives a percentage of 21.2 only. At all events, the cost of establishment is not likely to exceed 23 per cent. This percentage compares very favourably with similar charges in British India. The proportion of cost of establishment to outlay, being dependent on the grant or actual expenditure, can never be a fixed percentage, and no extensive reductions should be attempted merely because the percentage is high in any particular year.

As the Department is also responsible for the maintenance and general administration of the Public Works of the State, the establishment charge cannot be regulated too exclusively by the amount of works expenditure. In these circumstances, it might seriously impair the efficiency of the Department if further economies were attempted.

(Public Works), dated 12th October 1911.

5. Government, therefore, consider that their previous orders may be modified in this respect without in any way undervaluing the recommendations or labours of the Retrenchment Committee. They are accordingly pleased to sanction the continuance of the "Northern Circle" and the formation of a new "Southern Circle," as a tentative measure, for a period of two years from the date of the establishment of the latter.

6. The Northern Circle will, as heretofore, comprise the Kolar, Tumkur, Chitaldrug, Kadur, Shinnoga, and Hassan Divisions; and the Southern Circle, the Bangalore, Sanitary, Water Supply and Stores, Mysore and the Palace Divisions, as well as the Mysore City Improvement Works. The remaining Divisions, *viz.*, the Marikanave and the Cauvery Reservoir and Channels Conservancy Divisions, will be under the direct control of the Chief Engineer.

7. The headquarters of both the Circles will be at Bangalore. The office of the Superintending Engineer, Southern Circle, will for the present remain attached to the Chief Engineer's office so that the correspondence between these two offices may to a certain extent be informal, thus effecting a saving in the clerical staff.

8. The scale of establishment sanctioned for the office of the Southern Circle will be as shown below:—

	Rs.
1 Manager	80
1 Head Clerk	40
1 Second Clerk	30
2 Typists on Rs. 20 each	40
1 Munshi	20
1 Record-keeper	35
1 Budget Clerk	30
1 Head Draftsman	50
1 Assistant Draftsman	40
1 Assistant Draftsman	30
1 Mutchi	12
1 Head peon	10
4 Peons on Rs. 7 each	28
1 Lascar	7
Total	452

9. As stated in para 11 of the note of the Chief Engineer dated the 19th May 1911, some hands of the Chief Engineer's office should be transferred to the office of the Southern Circle and the reduction in cost effected thereby in the establishment of his office reported to Government.

10. From the date of the constitution of the Southern Circle, the appointment of the Special Assistant to the Chief Engineer will be abolished.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Report by the Chief Engineer of Mysore, dated 5th May 1911, and Note, dated 8th May 1911, on the Cauvery Reservoir Project and correspondence connected therewith

C. No. 13-19—84-90, DATED, CAMP MYSORE, 12TH OCTOBER 1911.

ORDER THEREON.—The question of constructing a reservoir across the Cauvery, for developing irrigation in the river valley within the Mysore State, has been under consideration and discussion for over forty years. It has come into prominence since 1902 in consequence of the hydro electric installation at Sivasamudram. The summer flow in the river is found inadequate for the existing irrigation and power supply and, with the increasing depth of the mines, the Mining Companies require additional power. The Sivasamudram scheme has been enlarged twice to meet the demand and each enlargement has added to the insecurity of the power supply as a whole. To remove this insecurity and provide for additional irrigation and power, a storage reservoir has become indispensable.

2. A project for a reservoir at Kannanbadi about 8 miles above the island of Seringapatam was prepared in the year 1908 by the late Captain Bernard Dawes, R.E., Deputy Chief Engineer, under the supervision of Mr. W. McHutchin, M.I.C.E., the late Chief Engineer. The cost was estimated at Rs. 440 lakhs and the project had for its object the irrigation of an area of 300,000 acres on both banks of the river and the generation of electric power to the extent of 70,000 H.P. for industrial and other purposes, both within and outside the State.

As the proposals involved extraordinary expenditure and part of it on the construction of works outside the State, the project was not carried to the stage of practical action.

3. The question was again taken up and fresh surveys were started in July 1910. The surveys and preparation of the project were entrusted to Mr. B. Subba Rao, L.C.E., Executive Engineer, (now officiating Superintending Engineer) assisted by Mr. M. A. Ananthulwar and Mr. K. R. Seshachar.

At the same time, an estimate amounting to Rs. 8 lakhs for a fourth installation of the Cauvery Power Scheme was prepared by Mr. H. P. Gibbs, M.I.E.E., recently Chief Electrical Engineer to the Government of Mysore (*vide* page 47 of printed report).

A combined project estimated to cost Rs. 253 lakhs (page 15 of printed report) was submitted to Government in May 1911, in which provision was made as under:—

	Rs.
(1) A dam 124 feet high capable of storing a depth of 118 feet of water, or 41 500 million cubic feet	139 lakhs.
(2) A canal system to irrigate 150,000 acres of land	106 „
(3) Extensions and improvements to the Cauvery Power Scheme to provide additional power to the extent of 5,000 H.P.	8 „
Total	253 lakhs.

4. In order to provide for the expenditure in easy instalments, it is proposed to carry out the work in two stages, the first stage of which (*vide* page 13 of printed report) will comprise the following works:—

	Rs.
(1) A dam with a full supply of 80 feet and a storage capacity of 11,030 million cubic feet but of sufficient section for an ultimate storage of 118 feet	81 lakhs.
(2) Extensions and improvements to the Cauvery Power Scheme to generate additional power up to 5,000 H.P.	8 „
Total	89 lakhs.

Public Works, dated 12th October 1911.

5. According to an agreement entered into with the Madras Government in the year 1892, the consent of that Government is necessary for the construction of a reservoir across the Cauvery. To this end negotiations were opened about the end of October 1910. The magnitude of irrigation interests in the Madras Presidency led to a prolonged correspondence both with the Government of Madras and the Government of India and the Madras Government have agreed to the construction of a reservoir of 11,030 million cubic feet under certain conditions which have been accepted by His Highness' Government. The Government of India have confirmed the agreement.

6. Negotiations with the Mining Companies have been in progress since May 1910 in the matter of rates to be charged for the protection to be afforded to the existing power supply to the Kolar Gold Fields, and for the additional supply likely to be required by them in the near future. In a letter dated 21st December 1910, Messrs. John Taylor & Sons, acting on behalf of the Mining Companies, have agreed to purchase power at the following rates:—

(1) £12 per H.P. per annum for 10 years, from the date the power supply is protected by storage, on all the supply contracted for.

(2) £10 per H.P. thereafter.

7. The reservoir in the first stage will serve not only to insure the present supply of power and generate the additional power required by the mines but also to provide sufficient storage for adding not less than 25,000 acres to the existing irrigation in the valley. An exhaustive consideration of the project from all points of view leaves no doubt as to its remunerative character and its protective value both for irrigation and power purposes.

The Government of His Highness the Maharaja are therefore pleased to sanction the construction of the first stage of the reservoir scheme estimated at Rs. 80 lakhs. As indicated in paragraph 4 above, and explained in greater detail in section 4 of the Chief Engineer's report, the first stage will meet all immediate requirements in respect of irrigation and power supply in the Cauvery valley.

8. Government are also pleased to direct that the construction operations shall be begun at once so that full advantage may be taken of the ensuing working season.

Orders will issue separately regarding the allotment of funds. It may be assumed for the present that a grant of not less than Rs. 10 lakhs will be available during the official year 1911-12.

M. VISVESVARAYA,
Secy. to Govt., P. W. D.

To—The Chief Engineer of Mysore.

The Comptroller of Mysore.

The Financial Secretary to the Government of His Highness the Maharaja of Mysore.

The Secretary to Government, General and Revenue Departments.

The Revenue Commissioner of Mysore.

The Deputy Commissioners of Mysore and Hassan Districts.

*Proceedings of the Government of His Highness the Maharaja of Mysore,
Public Works, dated 13th October 1911.*

READ—

(1) Public Works Secretary's letter No. 147—C. P. S. dated the 18th April 1911, submitting budget estimates of the Cauvery Power Scheme for the year 1911-12.

(2) Government Proceedings No. Fl. 544-84—G. P. 541-10-2, dated the 5th August 1911, sanctioning the budget estimates for the year 1911-12

No. 352-5—C. P. S., DATED BANGALORE, 13TH OCTOBER 1911.

ORDER THEREON.—The Budget estimates of the Cauvery Power Scheme for the year 1911-12 as included and sanctioned in the Government order read above will be printed and circulated for the information and the guidance of the officers concerned.

2. The budget provides for a revenue of Rs. 15,50,000 and an expenditure of Rs. 7,68,000 as against Rs. 15,00,000 and Rs. 8,90,000, respectively, for the year 1911-12.

To—The Chief Electric Engineer to the Government of Mysore.

The Comptroller to the Government of Mysore.

The Comptroller, P. W. and Railway Branch.

The Secretary to Government, General and Revenue Departments.

Exd.—c. v.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Chief Electrical Engineer's letter No. 2525, dated the 7th July 1911, submitting for sanction, a consolidated statement showing the names of all members of the establishment on the Cauvery Power Scheme with their salaries as they stood before and as they stand after the re-organization, called for in paragraph 7 of Government Proceedings No. 248-51—C. P. S., dated the 30th June 1911.

(2) Notes dated the 3rd and 18th August 1911 by the Comptroller, Public Works and Railway Branch, and the Secretary to Government, Public Works Department, respectively, on the above proposals.

NO. 376-9—C. P. S., DATED BANGALORE, 28TH OCTOBER 1911.

ORDER THEREON.—Government observe that in several cases the pay proposed by the Chief Electrical Engineer is in excess of what is strictly admissible under the Service Regulations. But having regard to the special circumstances of the Department, the Government of His Highness the Maharaja are pleased to sanction (with effect from the 1st January 1911) the proposals of the Chief Electrical Engineer as revised by the Secretary, Public Works Department. A statement showing the nominations and promotions as now sanctioned is hereto appended.

2. In the Government Proceedings quoted in the preamble, the provision made for a Store-keeper for the office of the Superintendent, Bangalore Power and Lighting, in addition to the three Store-keepers proposed for the three sub-stations at Bangalore, was allowed to stand pending submission of a further report explaining the necessity for its permanent retention. The Chief Electrical Engineer in paragraph 4 of his letter No. 2525 dated the 7th July 1911 having furnished the necessary explanation, His Highness' Government are pleased to accept the same and accord their final sanction to the appointment.

3. As regards *Work Establishment*, the Chief Electrical Engineer may exercise discretionary powers as noted below within the sanctioned money limit in each case:—

- (a) To sanction appointments and dismissals, the maximum pay of which does not exceed Rs. 30 in each individual case.
- (b) To make changes in the number and rate of pay according to requirements from time to time.

4. The proposal of the Chief Electrical Engineer in regard to the submission of the qualification reports of all officers and subordinates once a year, instead of half-yearly as originally indicated, is approved. The reports for each calendar year will be due in the month of January following.

21	Fl 1789—193-11-2 ...	31	Compiler, Mysore Gazette	Notifying the grant of privilege leave of absence for two months from 2nd January 1912 to Mr. J. S. Chakravarti, M.A., F.R.A.S., Comptroller and Financial Secretary, with permission to avail himself of the Christmas and New year's holidays and the appointment of Mr. M. N. Krishna Rao, B.A., Assistant Comptroller, to act for him during his absence or until further orders.
22	Fl 1791-2—170-11-2 ...	31	Comptr., Dy. Comr., Bangalore and I.-G. of Police	Sanctioning the grant of an advance of one year's pay to Mr. R. Shama Rao, Police Inspector, for building a house in the New extension, Bangalore City.

SECTION 2—SEPARATE REVENUE

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR OCTOBER 1911.

Serial No	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	Fl 1588—S R 60-11-2 ...	12	Venkatasubbiah, Vrithidar of Jodi Muthathi village, T-Nausipur Tk.	With reference to his petition dated 13th September 1911 praying for a reconsideration of Government Order No 4491-2, dated 25th February 1911, disallowing his claim to the toddy revenue of the village, informing him that Government see no good reason to reconsider it.
2	Fl 1613-4—S R 179-10 2	14	Ex. Comr. and Comptr.	Sanctioning a refund bill for Rs. 2-12-0, being the amount paid to S. V. Dasappa, Excise Assistant Inspector, Heggaddevankote, by the Munsiff's Court, Nanjangud, for having appeared as a witness there but credited by mistake at the Government Treasury.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
3	FI 1654-5—S R 33-11-4...	18	Ex. Comr., Comptr. and Chief Engineer	Sanctioning the continuance of the allowance of Rs. 3 to the Niganti of Kempambudi tank, Bangalore City, until Hessarghatta water is supplied for all purposes in the Central Distillery.
4	FI 1660--S R 62-11-2 ...	19	Excise Commissioner ...	Forwarding for disposal a petition received from Messrs. Spencer & Co., Madras, complaining that the Deputy Commissioner, Kolar, refused to grant a permit for the import of certain brands of Foreign liquors to their branch firm at the Kolar Gold Fields.
5	FI 1661—S R 62-11-2 ...	19	Messrs. Spencer & Co., Ltd., Madras	Informing them of the above.
6	FI 1677-8—S R 53-11-2...	20	Ex. Comr. and Comptr.	Sanctioning the transfer of S. Shamiengar, an Official of the Local Fund Department of the Deputy Commissioner's Office, Tumkur District, to the Excise Commissioner's Office.
7	Pol 363 ...	20	First Asst. to the Hon'ble the Resident	Forwarding for transmission to the Accountant-General, Madras, a statement of stamps supplied to the Hon'ble the Resident's Treasury and of the spoilt stamps returned by the Officer in charge of that Treasury during the month of September 1911.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
8	Fl 1745—S R 79-11-2 ...	27	Dy. Comr. Bangalore ...	Informing him that Mr. Enrico Stein has been permitted to export 1,000 bags of Mysore earth salt from Bangalore to Bombay for industrial purposes and requesting him to allow the exportation after duly ascertaining and certifying to the weight thereof.
9	Fl 1769-70—S R 68-11-2	30	Ex. Comr., and Comptr.	Sanctioning the purchase of 50 big trial glasses and 50 small thermometers for the use of the Executive Officers of the Excise Department at a cost of Rs. 350.

Sparkes of the Office of Excise Commissioner, Inspector-General of Registration, etc., till the end of the Christmas and New year's holidays.
11	Fl 1785-6—S R 42-11-2...	31	Ex. Comr., and Comptr.	Sanctioning a bill for Rs. 62 and odd on account of the arrears of pay of H. Ramiah, Excise Assistant Inspector, Hosdurga Sub-Range, from 26th July to 1st December 1909 at Rs. 15 per mensem for the period he was placed under suspension by the District Excise Officer whose order was on appeal cancelled by the Excise Commissioner.

GENERAL AND REVENUE SECRETARIAT.
Bangalore, 31st October 1911.

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

SECTION 4—SALARIES AND ALLOWANCES

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR OCTOBER 1911.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	Fl 1563—S & A 188-11-2	6	Thooljaram Singh, late Police Constable, residing in Santheper, Tumkur.	In reply to his petition praying for the grant of a pension for the service rendered by him in the Mysore Government prior to his transfer to Civil and Military Station, informing him that he should apply to the District Superintendent of Police, Civil and Military Station, as that is the officer who has to move further in the matter and get his pension rectified.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
2	FI 1568-9—S & A 245-10	9	Comptr. and Mily. Secy. to H. H. the Maharaja of Mysore.	Authorising the excess expenditure of Rs. 8,172 and odd incurred in connection with the traveling allowance bills of the Imperial Service Transport Corps and making a provision of Rs. 2,400 in the budget estimates to meet the bills likely to be pending adjustment at the close of the year.
3	FI 1578-9—S & A 212-11-2	12	Comptr. and Dy. Comr., Hassan	Sanctioning a gratuity of Rs. 45 to Mudli, late Revenue Peon, Arkalgud taluk.
4	FI 1580—S & A 200-11-2	12	Postmaster-General, Madras.	With reference to his letter dated 13th September 1911 requesting to be furnished with a verification memo of the services of one Ranganna, Village Postman, Kumsi, stating that the list of anche officials transferred to the Imperial Postal Department at the time of amalgamation does not mention the name of the Postman in question and that the barawards of the Shimoga Anche officer show that one Ranga was acting for Bana from the 15th February to the 31st March 1889 and that the latter was transferred to the Postal Department at the time of amalgamation.
5	FI 1587	...	12	Obeidulla Jalak, Mysore State Pensioner, Yellapur Mahal, Hubli town
6	FI 1599—S & A 258-10-11	13	Musamat Jilane Begum Bazar Road, Mylapore, Madras.	In reply to his petition praying for the continuance to him of the lapsed pension of Rs. 5 8-0, informing him that the order dated 25th April 1911 already passed is final and that further representations on the same subject will not receive any attention.
7	Pol 315	...	16	First Asst. to the Hon'ble the Resdt.
				In reply to her petition praying for the continuance to her of the political pension of Rs. 5-5-6 enjoyed by the late Mahomed Hussain Saib Tahir, informing her that the pension in question is not one granted by Mysore Government.
				Intimating the acceptance of the proportionate share of pension viz., Re. 0-13-10 debitable to Mysore revenues on behalf of Dasappa, late Village Postman, Maddur.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
8	FI 1642-3—S & A 192-11-2	17	Comptr. and Dy. Comr., Kolar	Sanctioning a gratuity of Rs. 35 to Meera Hussain, late Forest Guard, Malur Range.
9	FI 1650-1—S & A 225-11-2	18	Comptr. and I.-G. of Police	Sanctioning a gratuity of Rs. 76 to Syed Abdul Salar, late 1st Class Constable, Chitaldug District Reserve Police.
10	FI 1652-3—S & A 205-11-2	18	Comptr. and I.-G. of Education	Sanctioning a pension of Rs 8-2-2 to M. Seshamma, late Head Mistress, Government Girls' School, Gudibanda.
11	FI 1662-3—S & A 113-11-2	19	Comptr. and Offg. Secy to Govt., Genl. & Rev. Deps. (Mil.)	Sanctioning a pension of Rs 300 to Mr. Henry Donne, Assistant Secretary to Government, Military Department.
12	FI 1666-7—S & A 122-11-2	19	Comptr. and Dy. Comr., Chitaldug	Sanctioning a pension of Rs 12-8-0 to Krishna Shetty, late Head Shroff, District Treasury, Chitaldug, with the observation that the explanation of the Treasury Assistant Commissioner regarding the grant of leave to the Shroff is unsatisfactory, as his retirement was ordered in April and the leave was granted in June, i.e., at a time, when it was known that he had to retire and the condition of his having to serve three months after the expiry of the leave could not be fulfilled.
13	FI 1671-2—S & A 124-10-6	20	Comptr. and Sr. Surgeon	Returning the travelling allowance bills of Mr. E. S. Krishnasami Iyer, Civil Surgeon, for the months of October, November and December 1910, with the observation that as Mysore should be regarded as having been his headquarters, while he was in medical charge of Fein Hill, his claim to halting allowance while at Mysore cannot be admitted.
14	FI 1679-80—S & A 178-11-2	20	Ch. Engr. and Comptr., P. W. Branch	Conveying formal sanction of Government to the entertainment in the Public Works Department of the following officers who were above twenty five years of age:— 1. Mr. B. Sitaramachar, B.E. 2. „ S. H. Lakshminarasappa, B.A., B.E. 3. „ N. Sarabhoya, L.C.E. 4. „ Y. S. Kesava Rao, L.C.E.

2	2507-8—MI 44-11-5 ...	6	Dy. Comr., Shimoga, and Comptr.	Sanctions for a further period of one year till the end of June 1912, the additional establishment consisting of one octroi malsaddi on Rs. 10, two kolkars on Rs 5 each and a scavenger on Rs 10 per mensem and the increase by Re 1 of the pay of each of the two kolkars on Rs. 6 per mensem for the Tutthahalli Municipality.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
3	2530-1—MI 90-11-4	...	9 Dy. Comr., Chitaldrug, and Comptr.	Sanctions the sale of certain Municipal lands lying close to the houses of retired Police Jamaradar Venkata Rao and Coimbatore Rama Rao in the Chitaldrug town to those persons at the rate of 2 annas per square yard.
4	2532-3—MI 119-11-2	...	9 Dy. Comr., Bangalore, and Ch. Engr.	Directs that, as the Closepet Municipality cannot even meet the annual maintenance charge, the final scheme prepared by the Executive Engineer, Water-Supply Division, and approved by the Central Sanitary Board for supplying water to the Closepet town from the Arkavati river at a cost of Rs. 25,515 be abandoned.
5	2631-2—MI 76-11-9	...	12 Dy. Comr., Mysore, and Comptr.	Sanctions the retention till the end of June 1912 of the services of the octroi manegar on Rs. 8 of the Nagamangala Municipality.
6	2660-1—MI 51-11-6	...	13 Presdt., Bangalore City Muni. Council, and Comptr.	Sanctions a refund bill on behalf of Mr. H. S. Krishna Iyengar for Rs. 2-4-0, being the amount overdrawn by the Water-Supply Department on account of excess water consumption charges.
7	2662-3—MI 44-11-6	...	13 Dy. Comr., Shimoga, and Comptr.	Sanctions the retention for another year till the end of June 1912 of the temporary lighting establishment of the Shimoga Municipality consisting of one Inspector on Rs. 10 and four lamp lighters on Rs. 7 each per month.
8	2754—MI 133-11-2	...	16 Dy. Comr., Tumkur ...	Accords sanction for taking a special Census of the Tumkur town as the Census figures of 1911 compared with those of 1901 showed an enormous decrease by nearly one-half, due to the fact that when the last Census was taken, a great part of the town had been evacuated on account of plague.
9	2755-6—MI 22-11-4	...	16 Dy. Comr., Kadur, and Sany. Comr.	Records the communication of the Deputy Commissioner, Kadur District, that it is not possible to find the additional sum of Rs. 120 required in excess of the provision of Rs. 80 made in the current year's Sringeri Municipal budget for the purchase of a Gould's Star Force Pump for the Sringeri Municipality and that the subject will be considered when submitting the budget estimates for 1912-13.
10	2747-8—MI 124-11-2	...	16 Dy. Comr., Kolar, and Comptr.	Sanctions the travelling allowance bill of Srinivasiah, Daroga of Malur Municipality, for the journey performed by him between Malur and Bangalore in connection with the Census work.
11	2757—MI 29-10-19	...	16 Compiler, Mysore Gazette	Notifies the appointment of Mr. Kellodu Nanjundappa as a member of the Hosdurga Municipal Board, <i>vice</i> Mr. Hanumanthappa, resigned.
12	2758	...	16 Presdt. of Munls., Chitaldrug	Forwards, with an observation, a copy of the above.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
13	2776-8—MI 261-09-23 ...	17	Rev. Comr., Dy. Comr., Kolar, and Comptr. Compiler, <i>Mysore Gazette</i>	Sanctions the proposal to acquire certain lands for the extension of the Mulbagal town.
14	2779—MI 261-09-24 ...	17		Notifies the lands to be acquired as stated above.
15	2781—MI 125-11-2 ...	17	Do. ...	Notifies that Mr. Dandi Hussain Khan Sahib is appointed a Councillor of the Maddur Town Municipal Council, <i>vice</i> Mr. Patridge resigned.
16	2782 ...	17	Dy. Comr., Mysore ...	Forwards copy of the above.
17	2786-8—MI 60-11-4 ...	18	Dy. Comr., Kadur, Secy., State Life Insurance Committee and Comptroller	Directs that the date of birth, <i>viz.</i> , 26th July 1875 of M. Alasingachar, deputy moneygar of Chikmagalur Municipality accepted by the Life Insurance Committee be taken as the correct date of birth and that his service register be amended accordingly.
18	2789—MI 38-10-2 ...	18	Dy. Comr., Shimoga ...	With reference to the request of the Councillors of the Shimoga Town Municipality to be furnished with the accounts and vouchers pertaining to the Shimoga Water Works for purposes of audit by them, states that the Municipal Auditors cannot claim to audit the accounts already audited by the Comptroller, that all accounts in the Office of the Executive Engineer, Water-supply and Stores Division, and in that of the Comptroller appertaining to the said work will be kept open to inspection and that it is not possible to collect all the vouchers and registers and send them to the Municipal Council, and suggests that the easiest course would be to examine the accounts locally.
19	2790-1 ...	18	Comptr. and Ch. Engr.	Forwards copy of the above.
20	2792-3—MI 108-11-2 ...	18	President, Mysore City Muni. Council, and Comptr.	Sanctions a charge allowance at Rs. 25 a month to Mr. T. Hanumantha Rao for the period of five days of the leave granted to Mr. M. G. Krishnaswami Rao from the 19th to 23rd December 1910 both days inclusive and states that Mr. Hanumantha Rao cannot get the local allowance as he was only in charge of the current duties of the Vice-President's Office.
21	2796-8—MI 115-10-42 ...	18	Dy. Comr., Bangalore, Comptr., and President, Bangalore City Muni. Council	Sanctions the proposal to acquire certain properties at an estimated cost of Rs. 340 for extending a blind lane in Mohideen Sahib's gali in the IV Division, Bangalore City.
22	2799—MI 115-10-43 ...	18	Compiler, <i>Mysore Gazette</i>	Publishes the declaration statement in respect of the properties referred to above.
23	2810—MI 40-11-15 ...	18	Dy. Comr., Bangalore...	Sanctions the proposal of the Deputy Commissioner to appoint the Civil officer and Personal Assistant to the Deputy Commissioner to perform the functions of a Deputy Commissioner in the matter of acquiring certain properties required for diverting the storm water drain of the Basavangudi Extension as the office of the Assistant Commissioner of the Bangalore Sub-Division who was authorized to take order for the acquisition of the same in Government Order No. 113-4—MI. 115-10-32, dated 7th July 1911, has since been abolished.
24	2814-5—MI 61-10-32 ...	19	Dy. Comr., Mysore, and Comptr.	Sanctions with certain observations, the proposal to employ an Assistant Sanitary Inspector for the Nanjangud Municipality, his pay being debited entirely to the funds of the Municipality and that of the Sanitary Inspector of the taluk entirely to the District Funds.
25	2816-7—MI 61-11-9 ...	19	Presdt., Bangalore City Muni. Council, and Comptr.	Sanctions an estimate amounting to Rs. 2,601 for the special repair of portions of the Mysore road in the Bangalore City Municipality.
26	2841-2—MI 76-11-10 ...	20	Dy. Comr., Mysore, and Comptr.	Sanctions with certain observations the entertainment of five male sweepers on Rs. 7 each and two female sweepers on Rs. 6 each in

27	Pol 335—MI 347-10 ...	20	First Asst. to the Hon'ble the Resident	lieu of the existing five sweepers on Rs. 6 each and three sweepers on Rs. 5 each in the Periyapatna Municipality. Informa that the Vice-President of the Bangalore City Municipality reports that the proposed improvements to the new Cemetery in the Mysore road have been completed and that steps are being taken in communication with the Chaplain of the Fort Church, to close the old Goripalya Cemetery.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
28	2848—MI 43-09-4	...	24	N. S. Sirur, Esq., for Agents of the Mysore Spinning and Manufacturing Company, Ltd., Bangalore
				In reply to his petitions complaining of the gradual diminution of water supply to the mills from the Jakrayana tank, informs him that the Deputy Commissioner, Bangalore District, reports that no authority has been produced by the agents of the Company showing that they are entitled to the percolation water of the Sankey's tank and that as regards the removal of silt, etc., with a view to widen the capacity of the Jakrayana tank, the City Municipal Council should be addressed.
29	2849-50	...	24	Dy. Comr., Bangalore, Presdt., Bangalore City Muni. Council
				Forwards copy of the above.
30	2851-3—MI 120-11-2	...	24	President, Mysore City Muni. Council, Comptroller and Sany. Comr.
				Sanctions the four estimates aggregating Rs. 759 for supplying furniture, utensils, etc., to the Isolation Hospital at Mysore, the cost being met from Municipal and Plague Funds in equal proportions.
31	2945-6—MI 122-11-3	...	26	Dy. Comr., Kolar, and Comptr.
				Sanctions the proposed acquisition of certain properties in the Kolar town for the sanitary improvement thereof.
32	2947—MI 122-11-4	...	26	Compiler, Mysore Gazette
				Notifies a declaration statement in connection with the above.
33	2948-9—MI 122-11-5	...	26	Dy. Comr., Kolar, and Comptr.
				Sanctions the proposed acquisition of certain buildings behind Mugi Usman Sab's house in the Kolar town for the purpose of widening the conservancy lane.
34	2950—MI 122-11-6	...	26	Compiler, Mysore Gazette
				Notifies a declaration statement in connection with the above.
35	2996-7—MI 130-11-2	...	27	President, Mysore City Muni. Council, and Comptr.
				Sanctions the estimate amounting to Rs. 1,283 for the removal of the two back staircases of the Rangacharu Memorial Hall at Mysore with a view to convert the space occupied by them into rooms and the construction of an ornamental wooden stair-case on the southern verandah.
36	3037-8—MI 112-11-2	...	28	Dy. Comr., Chitaldrug, and Comptr.
				Sanctions the continuance of the two temporary sweepers on Rs. 5 and Rs. 3-8-0 a month and the increase of Re. 1 a month to the scavenger of the Jagalur Municipality till the end of the current official year and points out the unsatisfactory condition of the Municipality.
37	3010—MI 91 11-4	...	28	T. S. Annadore Iyer, late Water Inspector, Mysore City Municipality
				With reference to his petition praying that he may be either granted full pension as recommended by the Municipal Council or allowed to serve the remaining period of service, informs him that his prayer for an enhanced pension is inadmissible inasmuch as there are no special reasons for a departure from the rules in his case and that he cannot also be re-employed as in the opinion of the Medical Board that examined him on the 20th September 1910, he is unfit for further service.
38	3041	...	28	President, Mysore City Muni. Council
				Forwards copy of the above.
39	3059—MI 65 11-4	...	30	Dy. Comr., Tumkur
				Sanctions the grant to the Mahomedan residents of the Barr Lines at Tumkur free of cost and subject to certain conditions of a site adjoining their masjid to extend its present compound.
40	3062-3—MI 58-11-6	...	30	Dy. Comr., Kolar, and Comptr.
				Sanctions the proposal of the Kolar Town Municipal Council to retain for another year from the 19th October 1911, the services of the two temporary watchmen sanctioned in

Bangalore, 31st October 1911.

M. VISVESVARAYA,
Secy. to Govt. for Railways.

GEOLOGICAL

TABULAR STATEMENT OF MATTERS OF ROUTINE FOR OCTOBER 1911.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
1	691-93 ...	3	Dy. Comr., Tumkur, Comptr. and Mr. T. Venkappa, Taridal	Sanctioning the refund to Mr. T. Venkappa of the sum of Rs. 14-14-3, being the balance left after certain adjustments out of the minimum guaranteed royalty of Rs. 50 deposited by him in respect of the license which was granted to him for collecting corundum in the Kunigal Taluk and which has now expired.
2	694-96 ...	3	Offg. Chief Inspector of Mines, Supdt., Champion Reef Gold Mine, and Dist. Magt., Kolar	Passing orders on the report of the Officiating Chief Inspector of Mines in Mysore on a fatal accident due to overwinding which occurred in Tennant's Shaft, Champion Reef Gold Mine, on 9th August 1911.
3	697 ...	3	First Asst. to the Hon'ble the Resident	Forwarding for the information of the Hon'ble the Resident in Mysore, copy of the above together with a copy of the report of the Officiating Chief Inspector of Mines referred to therein.
4	700-703 ...	5	Messrs. F. W. Lethbridge James Short and Eardley Norton and Comptroller	Sanctioning the refund to Captain F.W. Lethbridge of the deposit of Rs. 1,000 held by Government in respect of an application on behalf of himself and Messrs. James Short and Eardley Norton of Madras, for a mining lease over a block of land in the Tarikere Taluk, which was not granted to them.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
5	706	...	9 Mr. J. Tommie, Woollen Mills, Bangalore	Stating that Captain F. W. Lethbridge's application for a prospecting license over a block of land in the Yedahalli Sub-Taluk cannot be disposed of until the receipt of the report called for from the Conservator of Forests, in Mysore as to whether the license applied for may be granted, as a large portion of the area lies within the State Forest and enquiring whether he is prepared to wait or whether he would withdraw the application at once.
6	707	...	9 Capt. F. W. Lethbridge, Lakvali	Forwarding a copy of the above for his information
7	708	...	9 Conservator of Forests ...	Enquiring whether he cannot furnish his opinion on the subject referred to in Serial No. 5 above at an early date, before the next field season.
8	719	...	16 Mr. K. Heerachand Saif, Bangalore	Intimating the terms upon which Government are prepared to grant him a license to collect corundum in the Malvali Taluk.
9	720	...	16 K. Rangappa, Parasurampur, Challakere Taluk	Intimating the terms for the grant of licenses to collect corundum in the State and stating that Challakere Taluk is not free for the grant to him of a license as applied for.
10	721	...	16 Mr. Gopalakrishnaia, Mysore	Intimating the terms for the grant of licenses to collect corundum in the State.

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
11	726	...	14	Mr. Katta Venkataramayya, Paragi village, Hindupur Taluk. Pointing out that, as the exploring license held by him over the Tumkur District, only authorizes him to explore for and take out minerals for purposes of sampling or testing, but not for sale, and as he cannot, under such a license, be permitted to carry on work on a large scale, the collection of corundum reported to have been made by him in certain lands in the villages of Hunasavadi and Kayanigutta Hanumanthapur in the Maddagiri Taluk is unauthorized and illegal in the absence of a regular license duly issued to him by Government, and informing him that instructions have therefore been issued to the Deputy Commissioner, Tumkur District, to arrange for the seizure of the corundum already collected by him and for the stoppage of further work in the said lands.
		...	17	
12	727	...	14	Dy. Commr., Tumkur Forwarding a copy of the above for his information and requesting him to arrange for necessary steps being taken for the seizure of the corundum collected by Katta Venkataramayya in the aforesaid lands and for the stoppage of further work therein and to submit to this office at an early date a report as to the result of the action taken by him in the matter and the total quantity of corundum seized by Katta Venkataramayya.
		...	17	
13	731	...	16	Mr. W. Barnard, Sampige Estate, Kadir Dist. Sanctioning, with certain observations, the renewal for a further period of one year with effect from 6th September 1911, of his prospecting license No. 64, lately transferred to Mr. Claude R. H. Courpalais
		...	18	
14	732	...	16	Dy. Commr., Kadir Forwarding a copy of the above for his information with the intimation that the rent due for the period of renewal has been duly received and credited to Government
		...	18	
15	741	...	18	Conservator of Forests Pointing out that Para 1 of the rules published under Government Notification No. R. 10777—Et. 81-08-6, dated 21st June 1909, applies only to cases of issue of fresh prospecting licenses or mining leases in forest areas, but not to renewals of the old ones and that it is not therefore necessary that he should be consulted in the matter of the renewals of such licenses or leases.
		...	20	
16	744	...	18	Offg. Chief Inspector of Mines Forwarding for his information an extract from a letter dated 28th September 1911, from the Secretary, Kolar Gold Field Mining Board, pointing out that in the Press Note on air-blasts lately issued by Government no reference is made to the efforts that the mining authorities themselves have been making by means of Seismograph or other scientific appliances to investigate the causes of the occurrence of air-blasts and requesting to be furnished with his views and suggestions, if any, in the matter.
		...	20	

Serial No.	Proceedings			Subject and Order
	Number	Date	To whom sent	
17	765 ...	26	Mr. R. T. Coggan, Bangalore	Forwarding duly passed for payment at the Bangalore District Treasury a refund bill for Rs. 40, being the fee paid by him to Government in respect of his and Captain E. W. Lethbridge's application for prospecting licenses over two blocks of land in the Tarikere and Kadur Taluks which have since been withdrawn by them.
18	786 ...	26	Mr. M. Gurumurthappa, Bangalore	In the matter of his application for a prospecting license for mica over a reduced area of $\frac{1}{4}$ square mile of land in the Yedatore Taluk in lieu of $1\frac{1}{2}$ square miles applied for by him in 1908, calling for an explanation of the delay of nearly three years in responding to the demand for the rent due in respect of the area originally applied for.
19	787 ...	28	Mr. W. P. Hanumanthappa, Bangalore	Informing him that the question of the refund to him of the deposit held by Government in respect of his cancelled prospecting license No. 92 will be disposed of by Government on receipt of the report called for from the Deputy Commissioner, Shimoga District, as to whether the terms of the said license have been duly complied with by him in all respects.
20	788-791 ...	28	Messrs. B. Nagappa, W. W. Coon, J. Burr and Chammundi Mining Co.	Requesting remittance, within a week, of the charges due on account of the survey and demarcation of certain prospecting blocks held by them.
21	795 ...	31	Mr. B. Nagappa, Bar-at-law	Informing him that Government are unable to comply with his request for the reduction of the rate of rent due for the period of renewal of his prospecting license No. 310 from Rs. 100 to Rs. 50 per square mile and requesting remittance of an additional sum of Rs. 100, being the balance of rent due at Rs. 100 per square mile.
22	803 ...	31	Offg. Ch. Inspector of Mines	In the matter of the request of the Kolar Gold Field Mining Board that the operation of the rules prescribed under the Mysore Mines Regulation IV of 1906 and published under Government Notification, Geol. No. 444, dated 22nd August 1911, may be deferred till 1st January 1912 in order to give the employees of the mines an opportunity of acquainting themselves with those rules, inviting his attention to Section 41 of the Regulation under which the rules in question came into force with effect from the date of their publication in the gazette and stating that in enforcing the rules officers will no doubt give due consideration to the fact that the rules come into operation without previous notice.
23	804-811 ...	31	Dt. Magts. of Dists ...	Forwarding copies of the above for information and communication to the Local Magistrates in their districts.

GEOLOGICAL SECRETARIAT.
Bangalore, 31st October 1911.
